

# LABOR WILL ENTER POLITICAL FIELD

## DECISION ANNOUNCED BY SAMUEL GOMPERS HEAD OF FEDERATION

Will Take Part in the Congressional Primaries and Election Looking Toward Securing Men Favorable to Organized Labor—Present Situation Makes it Imperative

(By The Associated Press)  
WASHINGTON, Feb. 25.—Pursuing the policy instituted in 1920, the American Federation of Labor thru its Non-Partisan Political campaign committee will enter the congressional primaries and elections this fall with the object of obtaining the nomination and election of candidates favorable to organized labor.

This decision was announced tonight by Samuel Gompers, president, at the conclusion of the quarterly meeting of the federation's executive council.

"It is proposed to go into the primary elections everywhere to make certain that candidates favorable to the rights and interests of the workers are nominated," said the announcement. "It need occasion no surprise if there are in many districts candidates placed in the field by labor as a direct result of antagonistic attitudes on the part of candidates in both Republican and Democratic parties. In the opinion of labor the present political and economic situation makes imperative the most energetic political action."

## MOTHERS WERE FLAPPERS ALSO SPEAKER SAYS

Woman President of Oxford College Tells of Old Timers

(By The Associated Press)  
CHICAGO, Feb. 25.—Mother was a flapper too except that modern appellation hadn't been imported from England in her day and the campus customs of 25 years ago didn't have the benefit of 1922 publicity methods. That is why Miss Eleanor N. Adams, president of Oxford College for women, defends the golosh-flopping, bobbed-haired wearer of knee length skirts today.

"The socially grotesque features of today are no worse than those of other times," said Miss Adams, one of the delegates to the conference of deans of women, which closed today.

Remember, she said, the merry widow hat, "balloon" sleeves, the wire rat of the former famous pompadour and the "Boston dip waist."

"I am very optimistic about the modern girl. She will be a much more intelligent mother than was her own mother," Miss Adams continued. "The modern girl has developed initiative. Her surplus energy expends itself in radical opinions, extreme dress and restlessness."

## FLOOD DRIVES MANY FROM THEIR HOMES

(By The Associated Press)  
FREEPORT, Ill., Feb. 25.—Swollen by rises in Southern Wisconsin, the Pecatonica river continued to rise tonight until it was within three inches of the highest mark it has ever reported.

Many families have been taken from their homes in boats and industrial plants in the eastern section of the city have been flooded. Thousands of acres of farm land in the Pecatonica river valley are under water.

Traffic on the interurban road between Rockford and Freeport and on the Illinois Central Railroad between the city and Dodgeville, has been suspended.

**WILL SEEK ELECTION AS ROAD COMMISSIONER**  
Henry G. Strawn yesterday announced himself a candidate for road commissioner in district No. 7, in which Jacksonville is included. Mr. Strawn makes the sixth entry in this interesting race.

**WILL LECTURE HERE.**  
Prof. Edward C. Hayes, head of the department of sociology at the University of Illinois, and president American Sociological Association, will lecture at the Woman's College Thursday evening, March 2 at 8 o'clock on the subject, "Economic Order and Justice." Admission 50 cents.

## HARDING TAKES HAND IN NAVY CONTROVERSY

Will Try to Reconcile Differences With Congress

(By The Associated Press)  
WASHINGTON, Feb. 25.—President Harding inaugurated an effort today to reconcile wide differences of opinion between the navy department and congress as to the size and cost of the navy for the next fiscal year.

At the white house conference with Republican members of the house naval committee and Representative Mondell of Wyoming, the president seeking to compromise what some members have described as the extreme views is said to have declared that with the size of the navy fixed by the arms conference the total enlisted personnel ought not be less than 80,000.

Secretary Denby has insisted on an enlisted strength of 80,000 and the present officer personnel including 540 members of the class at Annapolis to be graduated in June. Chairman Butler and other committee members have insisted that Mr. Denby's figures for an appropriation bill carrying a total of \$350,000,000 were too high and reports have reached the president that a considerable number of house members were demanding a cut so sweeping that there might be funds enough in the new navy bill for only 60,000 men.

**Denby Stands Pat.**  
In the face of determined opposition to his statement, Mr. Denby and Admiral Clegg, chief of naval operations announced that they stood pat on the figures. It is because of this situation that the president called in the Republican committee.

The feeling prevailed in some quarters tonight that the president had hit upon an easy basis of compromise and that he had let it be known he would not approve a bill that might effectually scrap the navy below the arms conference point thru failure to provide sufficient men to man the 18 battleships and other craft allotted the United States by international agreement.

Vessels which may be selected for conversion are building at Fore River, Mass., Newport News and Philadelphia and it was pointed out that by an early start employment could be provided for a number of men.

Not much was forthcoming as to the president's ideas concerning possible reductions in the officer personnel but reports indicate that members had been impressed with the navy argument that to keep the "treaty navy" on its toes, a full complement would be required for each ship.

It is known that the appropriations committee plans to retire about 400 retired officers of varying rank now on active duty.

Chairman Butler announced that his committee would continue hearing navy department officers.

## BELIEVES VOICE OF CARUSO GIVEN TO HIS DAUGHTER

Mother Says She Sees it in Efforts of Child to Sing

(By The Associated Press)  
WASHINGTON, Feb. 25.—"Was Caruso able to bequeath his daughter Gloria, now two years of age the natural gift for music that was his?"

His widow is convinced that he was and said tonight that in two years more Gloria would begin her piano lessons as the tenor desired. Some time ago Mrs. Caruso thought she had detected in her daughter efforts to express herself in song an appreciation of music and a remarkable memory. Daily she became more convinced and this conviction was further strengthened when Antonio Scotti and other artists who had been associated with the world famous singer admitted they also had discovered in the child indications of a remarkable musical talent.

Mrs. Caruso refrains from characterizing her child as a musical prodigy, but insists that she is possessed of an unusual aptitude for music.

"Gloria is in perhaps the same category with Gwendolyn McCormack, daughter of John McCormack, and Eva Didur, daughter of Adams Didur, both of whom have shown great talent for music," said Mrs. Caruso. "If Gloria inherits some of her father's natural gift, it would not be the first time such talent has been passed on from parent to child. There is Miss Louise Homer on whom nature has bestowed a talent resembling that of her mother, Madame Homer. Musical history is replete with such instances. I hope history will repeat itself in the case of Gloria."

"Enrico insisted that Gloria should take piano lessons when four years old and I intend to see that his wish is carried out."

Mrs. Caruso pointed out that Haydn studied at five, Mozart played at four and wrote a concerto at six, and Beethoven began the study of music in his fifth year.

"I am starting Gloria at the piano instead of in voice culture because I want to develop in her a high degree of musicianship before attempting to train her voice. I want her to 'feel' music as her father said."

## SMALL ANNOUNCES APPOINTMENT OF WATERWAY MEMBERS

Four Are Chosen to Attend Meeting at Washington

(By The Associated Press)  
SPRINGFIELD, Ill., Feb. 25.—Governor Len Small thru his secretary, George D. Sutton tonight announced the appointment of four members of the Illinois Deep Waterway Commission to represent the state at the National Rivers and Harbors congress at Washington March 1 and 2.

The four appointments follow: M. K. Northam, Evanston; Col. William Nelson Pelouze and Senator Edward J. Glacklin, Chicago, and Representative Charles Sumner Stubbins, Peoria.

Howard Baldwin of Chicago, son of Representative Charles Baldwin, was appointed some time ago.

he commission is to consist of nine members, four of whom are to be members of the general assembly. The commission was created to represent Illinois in all matters relating to the proposed Great Lakes to Atlantic waterway. Members of the commission will be accompanied to Washington next month by the legislative waterway committee headed by Senator Frank O. Hanson of Bloomington.

Following the rivers and harbors congress the Illinoisans will attend the meeting of the National Merchant Marine association March 3 and 4.

## EXPLOSION WAS RESULT OF A PLOT

(By The Associated Press)  
CHICAGO, Feb. 25.—The explosion of thirty tons of dynamite Friday night at McCook, Ill., which rocked the entire northern section of Illinois was declared today to have been the result of a plot by R. M. Perbomer, assistant state fire marshal. The announcement followed an investigation of the blast which occurred at the Consumers Company stone crushing plant. Officials of the plant, who were questioned, told of recent labor troubles resulting from the discharge of several employees. State officials said that every effort will be made to arrest those guilty of causing the explosion.

## WARRANTS FOR BANK OFFICERS

Corydon, Ind., Feb. 25.—Three officials of the Corydon National Bank are charged in federal warrants issued in Indianapolis today with misappropriation of funds and with making numerous false entries in the books. More than \$20,000 is involved according to affidavits made by William M. Morgan, national bank examiner on whose order, the bank was closed Monday. The Farmers' Savings & Trust company here, owned by Applegate & Cook also was closed at the same time.

## BRIEFS

At the recent unemployment ball, \$9,500 was placed in the hands of the mayor to assist the unemployed and \$1,000 of this will be used to buy the food stuffs. The "grocery" will open Monday and food will be dispensed to needy families.

WASHINGTON, Feb. 25.—Secretary of Labor Davis, had under way today the action contemplated by President Harding to bring about a conference between the bituminous coal operators and mine workers prior to April 1.

Wage contracts now existing in union fields expire at that time and a failure to replace them with a new agreement is considered likely to be followed by a nationwide strike affecting all union operations.

IOWA CITY, Ia., Feb. 25.—The ability to produce real men and women is the acid test of any institution of learning and Iowa State University has more than stood the test, John J. Tigert, United States commissioner of education, declared today before a convocation at the 75th anniversary of the University.

WASHINGTON, Feb. 25.—The war claims board of the war department will be dissolved March 1, its work having been virtually concluded, acting Secretary Wainwright announced today.

Of more than 20,000 claims against the government in connection with war time contracts on army supplies and equipment and also in connection with the acquisition of training camp sites only 31 remain undisposed of by the claims board, the secretary said.

SPRINGFIELD, Ill., Feb. 25.—Ernest Hoover, of Taylorville, chairman of the Democratic State committee, announced here today that he would not be a candidate for re-election to the committee. He is assigned to the press of private business as the cause for his withdrawal. He has been a member of the committee twelve years the first eight as treasurer, and the last four as chairman. Judge J. B. Vaughn of Carlinville, is to be a candidate for his place on the committee.

## STILL WAS HID IN FARM SILO

Danville, Ill., Feb. 25.—When neighbors investigated following a fire in a silo on the farm of Charles Crippin near here today they found several barrels of cotton mash and parts of a still. As a result Clifford Smith, brother-in-law of Crippin, is in jail on a charge of violating the prohibition law.

## FLOOD VICTIMS BUSY GETTING OUT OF THE MUD

Situation is Improved and Food is Being Rushed to District

(By The Associated Press)  
GARBER, Iowa, Feb. 25.—Residents of Elkport, Garber and Osterdack, along the Volga river in Clayton county were busy today cleaning the mud and debris from their homes as a result of the flood of Wednesday and Thursday.

The situation in Garber and Elkport had improved vastly today. Food and clothing were rushed to the stricken towns by automobile from Edgewood and Strawberry Point, banishing the fear of a food shortage which loomed Friday.

Conservative estimates placed the damage to property between \$100,000 and \$125,000 with no loss of life reported.

Swelled by heavy rains the Volga river began rising Wednesday morning. Streets along the river front in Garber, which had not recovered from a fire which wiped out the business district two weeks ago, were inundated and all telegraph, telephone and power lines were lost. The power line from Elkader which serves both Garber and Elkport, was out of order Wednesday night leaving both towns in darkness.

Wednesday night every building in Elkport a town of 400 inhabitants was partly inundated. Residents moving to the second floors of their homes. At one o'clock in the morning the main span of the bridge between Garber and Elkport was torn from its foundation and carried 2,000 feet down stream by the swift current.

The main span of the Chicago, Milwaukee & St. Paul railroad bridge was thrown out of alignment while the east approach was completely washed out. At the peak of the flood Thursday morning, a warehouse in Elkport, the property of the Spahn and Rose Lumber company and situated in the heart of that company's extensive lumber yards was totally destroyed by fire. Residents of the town stood in windows on the second floor of their homes helplessly watching the structure burn fearing the blaze would spread but the flood waters prevented a conflagration. The flood waters began to recede Thursday morning leaving huge cakes of ice strewn in the streets of the towns. The flood in Elkport was caused by back water while Garber was directly in the path of the swift current.

Rail service to the towns was resumed early today when a temporary bridge was built across the river.

Telephone communication has not been restored.

## GREAT OVATION GIVEN MAC NIDER

(By The Associated Press)  
CEDAR RAPIDS, Ia., Feb. 25.—Eight hundred members of the American Legion of Iowa here attending the annual convention of post commanders and post adjutants rose to their feet as a single man this afternoon and cheered Commander Mac Nider, national commander when he entered the convention hall.

The ovation lasted for several minutes. He praised the Iowa Legion for the work being accomplished and said that he had come back to Iowa to get an inspiration to assist him in carrying on the work of the organization. He urged each member to do his full duty declaring that the American Legion is not in Indianapolis or Des Moines, but in each individual post.

## FOREIGN RELATIONS COMMITTEE AGREES TO RESERVATIONS

Way is Cleared for Transfer of Conference Treaty Debate to the Open Senate—Substitutes and Amendments are Voted Down—Prolonged Debate Now Seems Apparent

(By The Associated Press)  
WASHINGTON, Feb. 25.—Finally accepting a compromise reservation program the foreign relations committee cleared the way today for transfer of the arms conference treaty debate to the open senate.

The four power Pacific treaty which has proved the most troublesome of the arms conference agreements in committee discussions was ordered favorably reported with a blanket reservation drawn by committee members after consultation with President Harding.

The committee also acted favorably on the naval limitation and submarine treaties voting virtually without debate and with the understanding that members could further present their views on the senate floor. Only the general far eastern and Chinese tariff pacts now remain on the committee calendar and it is the hope of senate leaders to bring the whole group of treaties into the senate proper early next week.

Around the Yapt treaty meantime, a situation developed today that prompted the majority managers to charge that debate had been heedlessly prolonged and to announce their intention to hold the senate in session tonight Monday evening unless ratification and call is reached before that time by curtailment of unnecessary discussion.

In making a favorable report on the four-power Pacific treaty which is to follow the Yapt treaty in the senate debate the foreign relations committee divided ten to three with Senators Borah, Republican, Idaho; Johnson, Republican, California, and Shields, Democrat, Tenn., voting in the negative. All the other eight Republican members supported the motion and were joined by two Democrats, Williams, of Mississippi, and Pomeroy, of Ohio.

By the same vote, ten to three, but with Senators Williams, Pomeroy and Kellogg, Republican, Minnesota, casting the negative votes the committee previously had accepted the compromise reservation said to have been accepted by President Harding and providing that the treaty contemplates no commitment to armed force, no alliance, no obligation to join in any defense.

**Vote Down Amendments.**  
Several proposed substitutes and amendments were voted down. The treaties accompanying "declarations" was approved by the same vote and the supplemental treaty, excluded the Japanese homeland from the four-power arrangement was ordered reported, twelve to one, Senator Borah voting in the negative. The naval limitation under submarine pact were given unanimous approval.

In the senate the four-power treaty alone apparently faces a prolonged debate. Several proposed reservations not acted on by the committee are to be offered by and Senators Borah and Johnson among others are attempting to organize an "irreconcilable" bloc against ratification.

Some opposition also is expected to the naval limitation and other treaties ordered reported today but apparently there is no disposition to make a protracted fight against them.

Decision of the republican leaders to hold the senate in session Monday evening, was reached after Senator Francis P. McNamara, Maryland, had made a three-hour speech against ratification and had indicated that he intended to go on Monday morning. He told the senate he had taken the floor only when he had learned that Chairman Lodge was preparing to "force" the treaty to a vote without proper discussion. Other senators, he said, wanted to oppose ratification, but had not had time to prepare their speeches since the treaty was reported last Monday.

Several sharp clashes ensued between Senator Lodge and the Maryland Senator the former denying that there was any effort to "force" action and charging in return that the debate was being needlessly prolonged.

## C. O. P. MEMBERS FAVOR FOREIGN BONDS FOR BONUS

Say No Obnoxious Tax Should be Passed for Purpose

(By The Associated Press)  
WASHINGTON, Feb. 25.—Thirty Republican members of the house of representatives, prominent in the group opposing the sales tax came out formally today in favor of using the refunded foreign bonds to finance the soldiers' bonus.

In a joint open letter to Chairman Fordney of the ways and means committee they said the use of these bonds would remove a grossly unjust proposal, prevent the political overturning of congress and will be just to the ex-soldiers who saved for us these foreign debts.

"The bonus should be passed without any obnoxious tax and should be passed without delay," added the letter, framed by Representative Fear of Wisconsin, and signed by 29 other members, mostly from Western states.

"Your action on yesterday supported by members of the subcommittee in discarding any sales tax on the bonus bill," the letter said, "will receive the hearty support of members of congress generally. We believe the subcommittee vote of seven to two against such tax is a close index of house sentiment."

"A sales tax would penalize every ex-soldier and compel him to pay toward his own meager bonus. Nine hundred thousand jobless soldiers will be obliged immediately to pay consumption taxes under any sales tax law."

Congressman Longworth is authority for the statement that when British bonds are received in June or July, these can be used with the approval of the president to finance the bonus, or several months before any sales tax funds would be available.

Semi-annual interest on this debt, amounting to \$125,000,000 has been voted in the British budget and is understood to be collectible by June 1st, next.

## COAL OPERATORS TO MEET WITH MINERS

(By The Associated Press)  
PHILADELPHIA, Feb. 25.—The Anthracite Coal Operators announced here today that they have agreed to meet representatives of the United Mine Workers in joint conference in New York, March 15, to negotiate a new wage agreement.

S. D. Warriner, chairman of the policies committee said it was the unanimous feeling of the operators that there must be a deflation in coal prices and that the mine workers for the sake of their own prosperity and the general good all around must share in this deflation.

Edmund Cierotchi, arrested in Chicago the other day for the violation of a city ordinance, testified that he had never heard of the prohibition amendment. There are a lot of other people in Chicago who wish that they had never heard of it.

The vote in the sub-committee of the ways and means committee indicates that there will not be a favorable report on the sales tax plan for meeting the soldiers' bonus. Representative Fordney said several days ago that the sales tax plan was not "the one" that the committee would approve, and Mr. Fordney seems to have first hand information about a lot of things doing down in Washington.

The facts about the county health program are to be presented tonight at the Congregational forum by the head of the state department of health. Morgan county is fortunate in having been chosen as the first in Illinois where this particular plan will be carried out. Local people will no doubt appreciate the opportunity that is offered to hear the discussion of the subject tonight and to ask for any information that they desire.

Will Hays declares the belief that films are destined to be the stabilizing factor in this country, ranking with the moral and educational influences. The possibility is there and the public has enough confidence in Mr. Hays to believe that the tendencies will be in the right way, if he is given a free hand in the general management of the moving picture industry.

The better spirit which prevails among farmers was quite in evidence Saturday at the public sale of farm land held at the court house. At least 100 farmers were in the group. Bidding was quite spirited but the best evidence of better feeling was caught from the conversation of these agriculturists. There is plenty of reason for this better feeling, for prices for farm products have steadily advanced during the past two or three months. Corn has passed the 50 cent mark, while last fall the price offered was as low as 32 cents. Wheat prices

have been advanced materially from the low December figures and the continued advance in hog values is a matter of both surprise and satisfaction to the growers. The prices now offered do not have a spasmodic or treacherous appearance, and farmers have begun to believe that these prices will "stick". True, they are not at all like the war time levels, but they are high enough to make farming a safe and reasonably profitable business.

The return of these conditions is fine for the farmers, but the city man is just as much to be congratulated. As has been so often said, the prosperity of the cities is dependent upon that very condition in the country areas. This is particularly true in a community like Morgan county, where the corner was turned some time ago and business is well on the upward road. Farming conditions afford the proof for this statement.

BIRDS NESTS MAKE CABLE TROUBLE

Cause Interruption of Service Between North and South America

Buenos Aires—By The Associated Press.—Birds who build their nests on the arms of telegraph poles are one of the most exasperating causes of the interruption of cable communication between North and South America, according to officials of the All-American Cables.  
The nest-builders construct their homes along the land section of the company's lines between Valparaiso and Buenos Aires and causing short circuits, sometimes delay messages say the officials.

One of these annoying nest-builders is called by the natives "el carpintero," another "el hornero," meaning respectively the "carpenter" and the "kiln-builder." Both of them select the angle between the arm of the pole and the peg which holds the insulator to construct their homes, using the telegraph wires as additional support.

The "hornero" builds his nest mostly of clods of earth and the "carpintero" employs small sticks and frequently bits of discarded telegraph and fence wire, harmless until it rains when it becomes mud, the water which establishes a circuit with the arm of the pole or between the different wires. But when the "carpintero" tries to reinforce the walls of his home with a piece of wire, the disaster to communication is instantaneous.

All the way from Buenos Aires to Valparaiso up over the Andes, the All-American Cable line employs patrols armed with long poles whose duty it is to watch for these nests and destroy them. The birds working in pairs will build a nest in a few hours, it is said.

The patrols also have to watch for "Devil's Beard," the thick web of a species of Argentine spider swept from the ground by the wind and carried against the telegraph wires, electrically connecting them when wet by rain or dew.

WITHDRAWS NAME AS CANDIDATE FOR ALDERMAN

William H. Slater yesterday sent formal notice to City Clerk J. E. Scott requesting the withdrawal of his name as a candidate for nomination for alderman in the Second Ward. Mr. Slater states in his letter that there are two other candidates, and further that he did not circulate or file his own petition. It is understood that Mr. Slater appreciates this kindly action on the part of his friends, but because of home and business duties does not feel that he could serve if elected.

BIRDS NESTS MAKE CABLE TROUBLE  
Cause Interruption of Service Between North and South America  
Buenos Aires—By The Associated Press.—Birds who build their nests on the arms of telegraph poles are one of the most exasperating causes of the interruption of cable communication between North and South America, according to officials of the All-American Cables.  
The nest-builders construct their homes along the land section of the company's lines between Valparaiso and Buenos Aires and causing short circuits, sometimes delay messages say the officials.  
One of these annoying nest-builders is called by the natives "el carpintero," another "el hornero," meaning respectively the "carpenter" and the "kiln-builder." Both of them select the angle between the arm of the pole and the peg which holds the insulator to construct their homes, using the telegraph wires as additional support.  
The "hornero" builds his nest mostly of clods of earth and the "carpintero" employs small sticks and frequently bits of discarded telegraph and fence wire, harmless until it rains when it becomes mud, the water which establishes a circuit with the arm of the pole or between the different wires. But when the "carpintero" tries to reinforce the walls of his home with a piece of wire, the disaster to communication is instantaneous.  
All the way from Buenos Aires to Valparaiso up over the Andes, the All-American Cable line employs patrols armed with long poles whose duty it is to watch for these nests and destroy them. The birds working in pairs will build a nest in a few hours, it is said.  
The patrols also have to watch for "Devil's Beard," the thick web of a species of Argentine spider swept from the ground by the wind and carried against the telegraph wires, electrically connecting them when wet by rain or dew.

**ASTRAKHAN IS LIKE NEW ORLEANS**

Visitor Says It Rembles That City After the Civil War—Great Need of Relief.

Astrakhan, Russia—(By The Associated Press.)—Once prosperous, but now ravaged by revolution, the situation of this city reminds the visitor of the condition of New Orleans after the civil war. It is trying to regain its former prosperity, but the process is slow. Even its position, Astrakhan, resembles New Orleans in some ways. The city is pitched on an island on a point where the Volga river divides into many smaller streams forming a delta that extends 60 miles to the Caspian sea.

The commerce of Astrakhan was once comparable with that of St. Louis, Memphis, or of New Orleans. It was rich in furs, in fish, in caviar, and busy handling freight which traversed the Volga. There was one food for every mouth and clothes for every back, work aplenty for every man.

Today are seen the wrecks wrought by combat, between the imperial and revolutionary forces but no sympathy is expressed with communism. "We have had enough," said one of the workmen who, together with thousands of his fellows and for 18 days, just after the Petrograd and Moscow risings in 1917, took to arms and besieged the Cossack troops and the wealthy people of the city, gathered in the Kremlin walls, in soldier barracks, and other points at the heart of the business district.

The immediate result of these 18 days of carnage was the destruction of the Duma buildings, the governor's house, the great bazaar, and several blocks of stores filled with dry goods and Persian and Turkestan carpets, silks and other fineries.

The ultimate result is indicated by the bare, fire-burned walls today standing gaunt and cheerless, with no work on the river and no food in the homes for these workmen. The people have little money to buy anything.

The spirited horses which once filled the horse market at the riverside have gone to the wars not to return or have been requisitioned for the present Budenny cavalry, a few troops of which are quartered here.

In the provincial hospital, where 300 patients lay there was practically no broth for famine refugees nor quinine for fever sufferers. Dr. Zakatowsky, the woman surgeon in charge, said American relief was promised, but so far it had not come.

The only public gathering places opened seemed to be the moving picture theatre which was crowded with young people and soldiers of the Budenny cavalry watching an utterly villainous Italian tragedy.

**WOMAN SHERIFF IS NOT BLOOD THIRSTY**

Has Been Subjected to Undesirable Notoriety on Account of Slaying of School Teacher.

Waukon, Iowa—(By The Associated Press.)—Mrs. Gunda Martindale, sheriff of Allamakee county, wants the world to know that she is not a blood-thirsty adventuress, but a modest, unassuming woman who has been subjected to much undesirable notoriety in connection with the slaying near here recently of a county school teacher.

When the body of Inga Magnusson was found in her lonely school house near Dorchester, 18 miles north of here, Sheriff Martindale's deputies started in search of the slayer which resulted, after a sensational cross country hunt with bloodhounds, in the capture of Earl Throst, a neighbor of the murdered teacher. He was brought back to the county jail here.

From the moment of Throst's arrest, thru his trial and after his sentence to hang, Mrs. Martindale has been given what she considers altogether too much publicity, most of which lauded her as being the principal actor in the pursuit and directly responsible for the speedy arrest of the slayer.

**Denies Press Stories.**

Among other things, Mrs. Martindale denies published accounts. That she followed the bloodhounds day and night trailing Throst.

That she saved the prisoner from mob violence.

That she plans to spring the trap when Throst is hanged.

Mrs. Martindale declares that she never fired a revolver in her life. She declared that news-writers have overlooked the manner in which she became sheriff and are broadcasting the implication that she is a stern avenger of the law.

Mrs. Martindale's husband was elected sheriff. He died in office. The county board of supervisors decided to name Mrs. Martindale sheriff and draw the salary of the office until January 1, 1923, the time her husband's term would have expired.

Being named sheriff, says Mrs. Martindale, has not caused her to take any active part in the capture of criminals. She continues to care for her children and the deputies handle the outside work connected with the office.

Mrs. Martindale says she will not be a candidate for election this fall. The job of sheriff, she declares, belongs to a man.

BEAUTIFYING OF  
ILLINOIS PLANNEDDr. R. E. Hieronymus Writes of  
Plans in Parks and Recreation  
Publication.

CHICAGO.—(By the A. P.)—Comprehensive plans for beautifying Illinois have been undertaken by the Better Community Movement in the state. Dr. R. E. Hieronymus, community advisor at the University of Illinois, writes in "Parks and Recreation," the publication of the American Institute of Park Executives and the American Park Society.

Many state-wide organizations are co-operating in carrying out the work. Dr. Hieronymus states while the Art Extension Committee of the movement has been organized "to assist in making art a more potent elevation forced in the lives of the people of the state."

The latter organization, the article says, "aims to help the people to discover beauty in nature and to enjoy it, to recognize beauty in art, and to enjoy it, and to stimulate the production of beautiful things."

"The committee urges clean-up campaigns," writes Prof. Hieronymus, "but after all these are negative. When the rubbish is out of the way the still more important question remains what shall be done to beautify these places from which 'unsightly' objects have been removed. It is just here the plans of the committee have been so helpful in many cases. Artistic forms of advertising, for example, must take the place of barn and fence posters and objectionable bill boards. Miserable, vicious, immoral street carnivals must be driven out, but artistic, wholesome forms of entertainment must be provided in their place."

"Plays, pageants, masques, and festivals, will develop home talent and at the same time provide elevating forms of amusement as well. Parks and playgrounds for open air recreation and suitable adequate community houses and social centers become a necessity in carrying out of any such program. At bottom these are community problems, and require for their proper solution, the co-operation of all the people making up the community. And through it all art must come to have a larger place in the community life."

"In the last analysis our common task and supreme task is to make a better, more beautiful community in which to live."

BOTTLES USED TO  
STUDY CURRENTS

Furnish Valuable Data for Makers of Marine Maps to Help Make Navigation Safe.

Washington.—By The Associated Press.—Nearly every day the Hydrographic Office of the Navy Department receives several "bottle papers" picked up in the sea by ships, which while not as thrilling as the famous "M.S." found in a bottle and revealed by Poe novelists carry interesting and valuable data to the makers of marine maps and those who seek to make navigation safe.

These bottle papers are dropped in the seven seas to study the flow of currents. Thousands of small slips, with instructions printed in nine languages, are sent annually to all mariners, with the request that they be filled out, placed in a well-corked bottle and dropped every now and then during the voyages about the world. The name of the "dropper," the ship, the date and the latitude and longitude are recorded. In another space the finder writes his name, the date and place in which the bottle was found forwarding the slip to the Hydrographic Office in Washington.

The data thus secured is used in checking currents and in correcting pilots charts. Sometimes the bottles drift for thousands of miles and are years on their irrevocable journey, but when returned, the papers inside usually carry a message of value to the Hydrographers. Occasionally there is an unusual tale connected with their discovery.

Sometime ago a bottle with its paper was dropped in the Indian Ocean and picked up in Red Sea off the coast of British Somaliland by a Mohammedan named Mustapha, who believed the paper to be of intrinsic value. Being unable to read its message in any of the several languages in which it was displayed, he mounted his camel and rode miles across the desert to the nearest British agent. After endeavoring to explain the nature of the find, the agent filled out the blank with the finder's name and forwarded to the Navy department in Washington. The native departed still convinced that some great reward was his, and about two months later rushed into the same office again demanding further elucidation on a newly acquired paper. In his hand he waved a large paper's chart of his native waters and a letter from the Hydrographer thanking him for his service. The chart he insisted was a draft on the American Government, it's size he believed indicated a large sum of money and he demanded indignantly to know why the local bank would not cash it for him.

Class of Sixteen Will be Initiated Tomorrow Night—Social to Follow Ceremonies.

Urania Lodge No. 243, I. O. O. F. has prepared for an interesting ceremonial tomorrow night at the hall on West State street. Sixteen candidates will be initiated and following the ceremonies refreshments will be served and a program of toasts given.

Roy Richardson is the captain of the degree staff and the ceremony promises to be of an impressive kind. The refreshments committee includes Charles S. Black, G. W. Patterson and Charles Goody.

A special invitation to be present was sent to Carl H. Weber, grand juror warden of the grand lodge. However, it is not certain that Mr. Weber can be here.

FAMILY LONG IN  
PROHIBITION WORK

Mother of Present Prohi Agent Was In Crusades in the Early Seventies.

Bucyrus, O.—By the Associated Press.—Miss Georgia E. Hopley of Bucyrus, the first woman general prohibition agent to be attached to the mobile enforcement forces at national prohibition headquarters, Washington, in her new work will be carrying on a crusade started a generation back in her family.

In 1872-73, when he who talked of prohibition was accounted out of his head, a valiant band of women braving hoots and jeers, started to make this city rufish for liquor. Mrs. Georgiana Hopley, who is dead now, was a member of that band. She was the "first" woman general prohibition agent's" mother.

Miss Hopley comes of a long line of newspaper folk. One brother was the editor of the first and only prohibition paper in Crawford county. Seven of her brothers and sisters still are in newspaper work, here or elsewhere.

The late John Hopley, her father, as editor of the Bucyrus Journal, was accorded the title of "Nestor of Ohio Journalism."

Miss Hopley has another "first" to her credit. She is said to have been the first woman in Ohio to enter active newspaper work.

Her initial newspaper job was as a reporter on the Columbus, O. Times. In 1900, Governor George K. Nash appointed her to represent women of the state at the Paris exposition, and she remained in France and England from March until December. She made trips to England and the continent in 1908, 1910 and 1911.

In 1918, Miss Hopley had charge of the women's publicity in the Frank B. Willis campaign in Ohio.

In her new work, she will undertake the spreading of publicity in the national prohibition enforcement cause, and will, it is expected, travel extensively over the country. She hopes to have delegated to her, the education of children of the country in the proper observance of prohibition laws.

OLD CLIPPER SHIP GOES TO JUNK PILE

Tacoma, Wash.—(By The A. P.)—An old clipper ship, the Glory of the Seas, which thirty-five years ago set a record for "windjammers" between San Francisco and Australia is being broken up here following the discovery that her hull has eaten into her hull beyond repair.

The stout old ship was built at the famous Donald McKay yards in Boston, Mass., in 1865 and, since then, has sailed on all the seven seas and called at most of the important ports around the globe.

Some years ago the Glory of the Seas was purchased by a Tacoma fish company and was put in the service between Puget Sound and Alaska. Each spring she would spread her canvas and sail away to the north, carrying supplies and employees for the Alaska canneries operated by the company, and in the fall would return with the season's catch.

The old boat was built of oak and other tough woods and some of these are still in good condition. She is being taken up for what metal she holds.

SMALL FARMS WILL  
BE PROFITABLE ONES

President of University Believes as Population Grows Denser Small Farms Will be the Ones to Pay.

URRANA, Ill.—(By the A. P.)—Illinois' most profitable farms of the future may become smaller as population grows denser, their products more diversified and cultivation more intensive, according to Dr. David Kinley, president of the University of Illinois.

Value of their products per unit may be higher than those selected for growing may be such as are in greatest demand in the market where the net profit is highest, added President Kinley.

"We must take note of the fact that the industrial growth of Illinois is likely to be rapid in the next 25 or 30 years," he said. "Manufacturers will be more numerous. This growth will bring to our doors a larger home market."

"With the growth of a home market of industrial centers, there will have to be more small farms producing the things demanded for consumption in such centers."

The tendency in general, Dr. Kinley reported, is towards a more intensive agriculture. "We are heading toward a standard or model farm," he said, "with one leading agricultural activity and numerous auxiliary agricultural processes, each of them yielding its own profit and all together yielding a larger joint profit than would be gotten from the pursuit of a single agricultural activity on the particular farm."

"We will have larger crops per acre, and in time, other higher prices for them or reduced costs of producing them."

"We will put our dairying as a separate industry on a firmer basis, and we will make it a part of the work of every farm. We will reclaim our waste lands and use them for forests and grazing. We will restore our cattle industry by finding some method of low cost feeding, and we will improve our economic organization and make social conditions more attractive."

ONE LOG HAS 16,000  
FEET OF LUMBER

Hoquiam, Wash.—(By the A. P.)—An enormous spruce log, 16 feet in diameter, believed the largest ever cut in this section, recently was sawed into 16,000 board feet of lumber here. When first put on the saw, the big log broke the mill machinery and was not cut until repairs were made.

Some time ago a larger log was brought here but no mill would tackle it and it was placed in a Hoquiam park for exhibition purposes.

HOME SANITARIUM  
POLICY CHANGES

Advisory Board Announces Hospital Now a Public Institution For Both Surgical and Medical Cases.

The New Home Sanitarium, Inc. of this city, operated since its opening as a private surgical hospital, today announces a radical change in its policy in that it will from this date be known as a public surgical hospital with medical annex, open to all physicians for the treatment of all surgical or medical cases with the exception of tuberculosis and contagious diseases.

It was the intention of the hospital management to provide a completely equipped and modern public hospital when the plans were made for the recent additions to the building, and it will from this date be known as a public surgical hospital with medical annex, open to all physicians for the treatment of all surgical or medical cases with the exception of tuberculosis and contagious diseases.

The above announcement was given out Saturday by the advisory board of the hospital through its president, Rev. H. H. DeWitt. The officers of the board also include James Young, Treasurer, M. Louise Ross, R. N., Secy, Rev. R. H. Hackley, and Dr. A. H. Kinnebrew, surgeon in charge.

Miss Ross has been made hospital superintendent with Miss L. M. Turner, R. N., assistant. Dr. W. P. Williams has been secured to take charge of the hospital laboratories.

The board has also inaugurated a charity department wherein deserving patients will be cared for. Miss Susie Lynch, office secretary, will receive all applicants for this service.

Gas Heater

New styles are  
now on display

The Ideal Heater where a quick, economical means of auxiliary heating is needed for any room in the house during the chilly portions of the day after fire in the furnace is discontinued—Economical, efficient, attractive

The Welsbach Gas Heater is the perfect fire with which to replace the troublesome open fire, or unsatisfactory heater which you may have in your fire-place. It is beautiful in design and in firelight effect. It makes no work, nor dirt, nor odor. It is just pure radiant gas heat, clean and instantaneous.

The 8-Glower "Welsbach" on account of its larger size and greater gas

consumption, is best used in a fire-place, permanently connected to the gas supply with iron or lead pipe.

The 5-Glower and 6-Glower sizes, being smaller, may be used either in fire-places, or as portables, with detachable hose. The ideal connection for a portable gas heater is an independent gas cock, which provides a permanent gas supply for the heater, and leaves the bracket free for a gas light.

## Temperature

People are all more or less alike.

We get up in the morning not knowing whether it is cold or hot outside.

We guide ourselves more or less by the thermometer. If it registers high we complain how hot it is. If it registers low we freeze and complain.

The same with prices today.

People come in and ask our prices. After we tell them, they often remark that the prices are either too high or too low for good merchandise.

Let us try to overcome this skeptical feeling.

Our prices on tailored-to-measure clothing are right and in line with the quality of our merchandise.

Get away from the thermometer habit—buy as you feel—not as someone feels for you.

## Father Formaz Saw Much During European Travels

One of the most thrilling experiences that Rev. Father Formaz had during his recent stay in Europe was at St. Bernard Pass in Switzerland. Just above the Pass is located St. Bernard Monastery, said to be the highest habitation of man.

Father Formaz made the journey to the monastery one afternoon arriving in the early evening. At breakfast the next morning a glance from the window warned him that snow was falling. Soon he noticed that a storm was imminent. He decided at once that it was no place for him, as in such a mountain fastness a heavy snow storm might readily mean enforced stay of many weeks. So the tourist was not long in donning his overcoat and hat and starting on the downward journey.

It used to be true that a coach creaked its way up the mountain side to the monastery at stated intervals but this service has been abandoned for some months, and the roadway thus in disuse had quickly become almost impassable.

### Walked Seven Hours.

There was only one means of immediate descent and that was the one that Father Formaz took when he started walking on the downward journey. It was just eight o'clock when he left the monastery and 3 o'clock in the afternoon when he reached the base of the mountain. For several miles of his journey he went thru a raging snow storm and then when a considerably lower altitude was reached he had the dis-

comfort of the falling rain. The rugged, jagged roadway was very slippery and Father Formaz had numerous falls during his descent. When he reached level ground once again he was limping and footsore, but fortunately had received no serious injuries. For a week after the experience he could barely walk but otherwise suffered no ill effects from the exposure.

Father Formaz left Jacksonville Oct. 1 and soon afterward sailed on the French liner Paris, landing at Havre. He went almost immediately to Paris, where two weeks were spent and then his itinerary took him into Switzerland and thence into Italy. From Naples he sailed to Tunis for a journey thru North Africa. Later he made his way to Cadiz and traveled thru Spain and southern France back into Paris for another two weeks.

While Father Formaz had visited Europe several times before, this was his first bit of travel into Africa and the trip was merely that of a tourist seeking to visit interesting area. From Tunis he went by rail down thru Algiers to Tangier and Casablanca in Morocco, which were the terminal points of his African travels.

### Paris Has Normalcy Air.

As indicated, the most time was given to Paris, where Father Formaz visited many places of interest that of a tourist seeking to visit interesting area. From Tunis he went by rail down thru Algiers to Tangier and Casablanca in Morocco, which were the terminal points of his African travels. Paris has Normalcy Air. As indicated, the most time was given to Paris, where Father Formaz visited many places of interest that of a tourist seeking to visit interesting area. From Tunis he went by rail down thru Algiers to Tangier and Casablanca in Morocco, which were the terminal points of his African travels.

Passing along the streets of Paris one day the Jacksonville man saw a great throng before the Chamber of Deputies. He managed to gain admission and so was present when premier Briand dramatically resigned his post after he had sensed the opposition of many of the deputies. Briand had been accused of subservience to Lloyd George and had just returned from a conference with the British premier when he resigned from the office.

### Not Worried Over Debts.

Father Formaz found all thru France a great deal of unfriendly feeling to England, particularly because of England's stand with reference to German reparations. The French people with whom Father Formaz came into contact have a most cordial feeling for the people of the U. S. However, they do not seem at all worried about their debt to this country. "You know," they say, "that we cannot pay it now, so why worry about it? After we get the money from Germany then we can pass it on to you."

There is no question but that the French have deep seated hatred and fear for the Germans. They still maintain an army of 800,000 men scattered about France and in their foreign possessions but they live in fear that some day they will again be attacked by their ancient enemies from across the border. Father Formaz was not in Germany but he had abundant opportunity to learn of the activity of the Germans in manufacturing ways.

### Germans Keen For Business.

In Switzerland he talked with one traveling man who said that he had not taken an order for six months because he was working in a territory where representatives of the German houses preceded him and continually undersold the prices that he could quote. Father Formaz further found proof of German activity on his homeward journey. He sailed from Cherbourg on the U. S. liner America and hundreds of the passengers were Germans coming to this country either to seek business or to establish agencies.

The past months have afforded excellent opportunity for European travel at moderate cost, Father Formaz found, owing to the difference of the rate of exchange. Before starting he purchased a considerable number of francs and so had the advantage of the rise in price during his absence.

In Rome, where a week was spent, the Jacksonville priest visited the places of special interest to most tourists and was at the vatican for a brief time and had the honor of presentation to Pope Benedict XV. This was not many weeks before the death of the pope and Father Formaz said the news of his demise was not a great surprise. Any visitor could not fail to be impressed with the frailness of the pope, who was a man of exceedingly small stature and evidently far from normal physical strength.

Heard Marshal Foch. One of the interesting visits Father Formaz had in Paris was at the American Legion headquarters. It was the night that the films showing Marshal Foch's travels in the U. S. were shown there for the first time. The marshal sat in a place of honor and was evidently very much amused at some of the views and the recollections of his American visit that they recalled. Afterward Marshal Foch made a brief address, telling how much he enjoyed his travels here in the United States and his appreciation for the honors shown him. He took occasion again to commend American soldiers for bravery

shown and also praised the American Legion. Ambassador Herrick who was also present, made a brief response.

Father Formaz was absent from Jacksonville for more than four months and returned very much rested mentally and physically. He took the trip because of the need for recreation, and while he returned somewhat lighter in weight, it was not because the travel did not benefit him. As a matter of fact, when not on train practically all of his traveling was done on foot, and he made the long pedestrian journeys for the definite purpose of his health and with good results.

The above paragraphs give only imperfect sidelights on an interesting period of travel. Father Formaz as indicated, has returned very much refreshed in mind and body, a fact which is a matter of great satisfaction to his many friends within and without his church.

### SALT WATER FISHERIES SERIOUSLY MENACED

Members of Migratory Fish Conservation Committee Issues Warning Against Practices of Commercial Fishermen.

NEW YORK.—(By the A. P.) The salt water fisheries of this country are seriously menaced by the present practices of commercial fishermen, pollution of water and improper spawning regulations, declared John B. Burnham, a member of the Migratory Fish Conservation Committee, and one of the originators of the Migratory Bird Law, today.

Off the coast of Lower California, Mr. Burnham asserted, the water is frequently white with fish killed by purse seiners, who cannot take them to port for sale. He says that the Atlantic sturgeon and salmon have practically disappeared and added:

"Unless radical action to preserve our fish is taken in the immediate future, this country will find itself facing the problem of trying to restore a natural resource of great importance which already has been lost."

The Migratory Fish Conservation Committee, an organization believing in the necessity for federal control of the fisheries, will soon introduce in Congress a bill, similar to the present migratory bird law, looking to the general protection of fish in the waters of the United States, Mr. Burnham said.

The migratory bird law, he stated, had proved conclusively that game can be conserved by proper legislation and the Migratory Fish Conservation Committee expects little opposition to the bill except from commercial fishermen and those states which derive a revenue from such fishing without a thought of the probable duration of the industry.

### WOMEN FAIL TO EXERCISE FRANCHISE STOCKHOLM.

STOCKHOLM.—Less than half of the women of Sweden entitled to vote exercised their newly won franchise rights at the polls in the elections of 1921, the first year of full suffrage for women according to a report of the Swedish Central Bureau of Statistics just made public. However, the official report of the 1921 elections give the suffragist leaders at least two causes for rejoicing.

The men did not show a much better record than the women, and the number of women voters exceeded the male voters in the capital of Stockholm by more than 5,000 voters.

The official report shows that 47.1 percent of the Swedish women voters cast their ballot while 61.9 percent of the men voted. The total women's vote in the city of Stockholm was 76,566, while vote cast by men was 71,198.

The general impression throughout the country seems to be that the Swedish women have not fully realized the importance and significance of their new privilege. It is believed that in the future they will make a better showing at the polls.

The heavy women's vote in Stockholm, which is to a large extent an industrial city, may indicate that the working women, especially women trade union members, grasped the opportunity to register their votes. However, other women cannot be said to have neglected the ballot as a whole.

### MISSIONARY GETS NEW JOB.

CONSTANTINOPLE.—Dr. William W. Peet, who was recently appointed League of Nations commissioner here, has been elected president of the Association for Friendly Relations in the Near East, just organized in this city. Dr. Peet has long been one of the chief representatives of American missionary interests in Turkey.

Rear Admiral Mark Bristol, American High Commissioner, is honorary chairman of the society. In an inaugural address he expressed the hope that this movement marked the beginning of an effort that might result in great good in this part of the world. He said that the association would be dedicated to a study of the art of cultivating friendly relations, social, religious, commercial and political, between individuals, communities and nations. It was a big task, he added.

## WORLD'S FARTHEST NORTH UNIVERSITY

Alaska Agricultural College and School of Mines at Fairbanks—Will Open Next September.

Seattle, Wash.—By the A. P.—What it is believed will be the world's "farthest north" university—The Alaska Agricultural College and School of Mines at Fairbanks, within a hundred miles of the Arctic Circle—will open its doors next September.

Charles E. Bunnell, former federal judge and now president of the institution, announced here recently. The college campus is situated on a tract of land four miles from Fairbanks on the main line of the new government railroad, set aside by congress in 1915. The college itself was formally established in 1917 by an act of the territorial legislature and \$60,000 set aside for buildings and equipment. The sum proved inadequate and in 1921 an additional appropriation of \$41,000 was made. Most of the operating expense will be met by the territory of Alaska, but \$50,000 will be available from federal funds, according to President Bunnell.

The first year's curriculum will offer four courses—agriculture, general science, home economics and mining—under present plans. Short courses in mining will be given to meet the requirements of prospectors and others unable to attend during the full college year.

The work of the college, President Bunnell predicted, is destined to play an important part in the development of the territory.

There was under cultivation in the immediate vicinity of Fairbanks last year, he pointed out, a total of 1,920 acres. This land produces 100 tons of vegetables, 1,006 tons of oats hay, 1,270 bushels of oats and barley, 3,516 bushels of wheat and 392 tons of potatoes. The wheat represents the yield of 183 acres. This yield can be multiplied many times as more land is brought under cultivation through the application of proper farming methods.

President Bunnell will remain "outside" for several weeks securing equipment for the school and employing faculty members.

# Springfield Spoils Jacksonville H. S. Record

## MAKE LOCALS INTO CAMP IN EXCITING GAME LAST NIGHT

Final Score Was 34 to 18 in Favor of the Capital City Lads—Springfield Was a Much Better Team Than in Game Here—Hyndman Won Game for Springfield by Himself

In one of the fastest and most exciting games ever seen in Springfield, the capital city five broke Jacksonville high's record Saturday night. The game was full of action from the first to the last whistle. So fast were the players of both teams working that fouls were frequent. Both Putnam and Hall went out on personal fouls before the game ended. This is something unusual for Putnam who seldom fouls so far as we know has not made four personals in a game this year. The same may be said of Hall. Judging what we saw of his playing here, he is usually a clean player.

During the game fourteen personal fouls and three technical fouls were called on Jacksonville. Eight personal fouls and five technical fouls were called on Springfield. In the tosses for baskets after free throws Hyndman had better of Goebel and Hunter. He made ten points while Goebel got three and Hunter two.

Jacksonville did not play up to its usual form. Hunter perhaps played nearer to form than any of the others. The men, however, put everything they had in the game and while they lost they were not yet convinced that Springfield has anything on them. They are hoping to win the district championship and get another shot at Springfield in the sectional tournament, providing Springfield comes thru in her district.

## FORMER RESIDENT OF WHITE HALL IS DEAD

Remains of Perry E. Cobb to be Brought From Long Beach, Cal., for Interment in Grecco County — Other White Hall News.

White Hall, Feb. 25.—The remains of Perry E. Cobb, whose death occurred at Long Beach, Cal., last Sunday, are enroute to White Hall and are expected to arrive Sunday evening. The widow left Long Beach Thursday with the remains. Funeral services will be held in the Methodist church at 2 o'clock Sunday, under auspices of the Odd Fellows. The discourse will be delivered by Rev. J. O. Kirkpatrick, and the singing will be by the I. O. O. F. male quartet. The deceased was 57 years of age. He went to California about three years ago in poor health, and since early in January he has been an invalid. He was a son of the late William Cobb, a pioneer of this locality, and was a rural mail carrier out of White Hall for about fifteen years. He had been in business ventures.

The February session of the Parent-Teachers' Association will be held Monday evening in the high school assembly, and will be addressed by Mrs. W. F. Young, president of the Illinois council

of Parent-Teacher associations. There will also be presented facts with relation to the new high school that will soon be in course of erection, bonds for which have already been sold in the amount of sixty-five \$1,000 bonds.

White Hall, Feb. 25.—Chas. Bushnell is negotiating for the purchase of the Elmer Mehrhoff general store at Barrow, where he will locate with his family, being unsuccessful in his quest for the purchase of a desirable residence in White Hall. His sale of farm articles this week fell below expectations. One good horse went at \$25, and no more offers were made in the horse line. Sales in general are turning out unsatisfactorily, and are held every day. Mr. and Mrs. Merrill Bates left Thursday for Kentucky, where Mr. Bates will take up clerical work in the oil fields in preference to farming, having sold their goods.

Rev. J. C. Raines has brought to a close the series of revival meetings that have been in progress in the Baptist church at Patterson for the past three weeks. The church was greatly revived in spirit and action, and there were seven additions.

All business houses were closed from 2 to 4 o'clock Friday afternoon on account of the funeral of Mrs. H. W. Roodhouse, wife of the mayor. It was one of the largest funerals held in White Hall, the spacious M. E. church

being filled with people and many were unable to gain admittance. It is rumored that Geo. C. Griswold will give up town life and return to his farm on Apple Creek Prairie. This is the first evidence of a return movement to the farm, and Mr. Griswold is leading in a very important movement.

## HUNTING MOONSHINE IN CHICAGO

Mrs. Mary Turner Connel has sent the following from the American issue for publication. Mrs. Connel's comment is "prohibition is Illinois" voted issue. Gov. Small and John A. Wheeler are our leading prohibitionists.

Some days ago, the United Press sent out from Chicago a weird tale about an alleged adventure of "Pussyfoot" Johnson, who was said to have gone into the Chicago darkness in quest of "moonshine." According to the story, Johnson was recognized at the Rex cafe and was hustled out, his coat and hat being thrown after him. And next, when he went into the dance house of Hon. Ike Bloom smoking a cigar, he recognized the visitor, jerked the cigar out of his mouth and administered a lecture to the smokers. Johnson's version of the affair, as given out to the Associated Press from Wabash, Ind., is as follows:

"Sunday night an over-enthusiastic reporter for the Chicago Herald-Examiner explained to me the horrible conditions existing in Chicago under Mayor Thompson," Mr. Johnson said. "He said that there were at least 1,000 blind tigers in Chicago, selling liquor openly and above board to anybody who asked for it. He offered to show me a lot of these places. He took me out in a taxicab and after two hours' search, was able to find only one place where even he could buy a drink. Under the influence of this stimulant he imagined that I was identified and thrown out of the Rex cafe.

"I was identified all right, but was not thrown out or interfered with in any manner.

"At the dance hall of Ike Bloom, I was recognized by Mr. Bloom, who gave me a good cigar which I smoked while talking to him at a table. The reporter, however, having a drink of 'moonshine' under his belt, imagined that Bloom pulled the stopper out of my mouth."

"In the old license days, a newspaper reporter would not be obliged to joust around in a taxicab for two hours in order to find a drink.

"This newspaper reporter estimated that there were a thousand places in Chicago where 'anyone could purchase a drink of whiskey openly and without any questions being asked.

"Instead of a 'thousand,' he could only find one. In the old black days, there were 7,000 licensed saloons and half as many blind tigers. Even if prohibition had only cut it down to 1,000, there would be a tremendous gain. But even the reporter could find only a single one. "It looks as though Chicago was not quite as sinful as Chicago papers claim it to be.

"There appears to be quite a lot of 'moonshine' in the columns of the Chicago papers."

## AMERICAN LEGION NEWS NOTES

Wall street is determined to kill the adjusted compensation bill at any cost, according to a report sent by New York state executives of the American Legion to national headquarters at Indianapolis, Ind. The report states that mandatory orders were issued by at least one large stock exchange house, ordering employees, both men and women, to write their congressmen urging against the passage of the measure. Suggested forms were handed out, and employees were instructed to deliver their letters in unsealed envelopes to their employers for inspection.

Lined up with Wall street against the bonus is the U. S. Chamber of Commerce, which, however, is meeting continued opposition from its constituent chambers in widely separate parts of the country. Chambers in Omaha, Neb., in Battle Creek, Mich., and in several cities in Oklahoma and Ohio have now flatly declared in favor of the bonus in the questionnaire sent out by the national body. In Toledo, following a hearing by the American Legion, business men of the local commerce board refused to vote on the matter, charging that the issue had not been impartially presented by the U. S. chamber. They said that it had ignored three of the five options.

"I think that I am 32 years of age. I am five feet, nine, and weigh 130 pounds. My eyes are gray and I have blond hair. I believe I was a soldier. If anyone can tell me who I am or anything about my past, please telephone the police."

This is what a clean-cut young man told attendants in a Los Angeles, Cal., hospital. He wore an American Legion button, and Los Angeles posts of the Legion are helping him find himself.

Failing in his attempt to commit suicide by freezing in a snow-drift at Emporia, Kan., Chester Hagerman, jobless war veteran, is being sought by the American Legion. A woman of Medicine Lodge says her son, who bore that name, was reported "killed in action," and a body, supposed to have been his, brought from France for burial here.

Lined up patiently for hours in advance, hundreds of tattered ex-soldiers received shoes, overcoats, and children's garments from the American Legion distributing committee in New York.

Convalescing at Kennilworth, N. C., from wounds received in the Argonne, one American Legion man sent \$1 to the Woodrow Wilson fund, and promised four more payments. Many Legionnaires are listed among the donors to the foundation.

Possessing all the requisites for a dance except music, American Legion men in Lincoln, Neb., called on an ex-gob for help. He rigged up a radiophone and tuned in on an orchestra 1,000 miles away.

A Spanish bull fight will be staged in Madison Square Garden, New York, by an American Legion post. One stipulation is that the bull shall not be hurt.

A married man, who formerly was earning \$72.50 a week, applied to the American Legion, wholly destitute. He took a job as a packer at \$15, and said he was glad to get it.

Twelve majors, five naval commanders, 27 captains, and nearly 100 lieutenants have applied for jobs at American Legion employment headquarters in New York since September.

A cemetery in Fairmont, W. Va., where civil war soldiers were buried, had become a thicket of briars. The American Legion cleaned it up to do reverence to the dead heroes.

"The Star Spangled Banner," rendered on a handorgan with a monkey accompanist, is taboo with the American Legion in New York. A bill before the legislature would prohibit collections being taken for playing the national anthem.

Plans for a Connecticut state hospital for ex-service men have been endorsed by Governor Lake. It will be named for Frederick W. Galbraith, late commander of the American Legion.

A federal appropriation of \$16,400,000 for hospitals for wounded ex-soldiers has been asked by the American Legion in New York, where continued investigation has revealed inadequate facilities.

Kansas women have organized to put over a state bonus. Mrs. Ida Walker, woman legislator, has told the American Legion she wants nurses included in the compensation.

Mr. J. Herman leaves tonight for the eastern markets to replenish spring stock of ladies and misses Ready-to-Wear garments and millinery, and new goods will be constantly arriving.

Among business callers in the city Saturday from Sinclair, were Mr. and Mrs. Louis Ward, Arthur Swain, F. C. Trotter, Misses Emma and Sarah Swain and Louis Ward.

## MAGAZINE TELLS OF LOCAL WORK

Red Cross Courier Has Article on Morgan County Nursing Activities Written by Miss Grace Carter.

The last issue of the Red Cross Courier, the national organ of the organization, contains a report of the work of the Morgan County Red Cross Nursing Activities committee. The account is interesting and shows the scope of the work which this committee is doing and the widespread interest that is attached to it. We print herewith a cutting from the article:

"The support of the entire county in its nursing service has been enlisted by the Morgan County Chapter, Jacksonville, Ill., by the unique plan considering one by one the problems in the smaller communities confronting the Chapter Nursing Activities' Committee.

"This has brought every section of the county into the closest possible relation with the nursing program, is stated by the chairman of the N. A. C., Miss Grace Carter who has just sent a report to Central Headquarters of

the work accomplished since February.

## Committee is Active.

"Aside from chairmen who were residents of each of the branch towns the committee comprises the county superintendent of schools, a director of the Tuberculosis Association, representative of the county medical society, the Superintendent of the Social Service League and the chairman of the county commissioners. This personnel were active and not honorary members of the committee attending the meetings held in the various branch towns as well as those at headquarters.

"A county health survey which had just been completed under Red Cross direction was made public at the first meeting. Thus a thorough understanding of the needs of the different parts of the county existed before the actual nursing service was launched.

"Taking the meeting to the rural communities was found to be the most satisfactory way of interesting the community in its needs and problems. These meetings were open to the public and a special effort was made to secure as large an attendance as possible.

"We have held our meetings each month generally at some

central point where the nurse has just been working," says Miss Carter. "Never have we allowed anything to prevent our going, neither storm, rain broken axles or hold up scares. Reports of the meeting have been sent to absentees in order that they might know what the nurse is doing and how the funds are being expended."

A crippled children's clinic has been re-established and is held every six weeks in the basement of the public library. Notices are sent out to all doctors, institutions and individual cases found by our N. A. C. When necessary transportation is furnished, the office is turned into a hospital and the Red Cross nurse receives help from other graduate nurses."

## The New Home Sanitarium

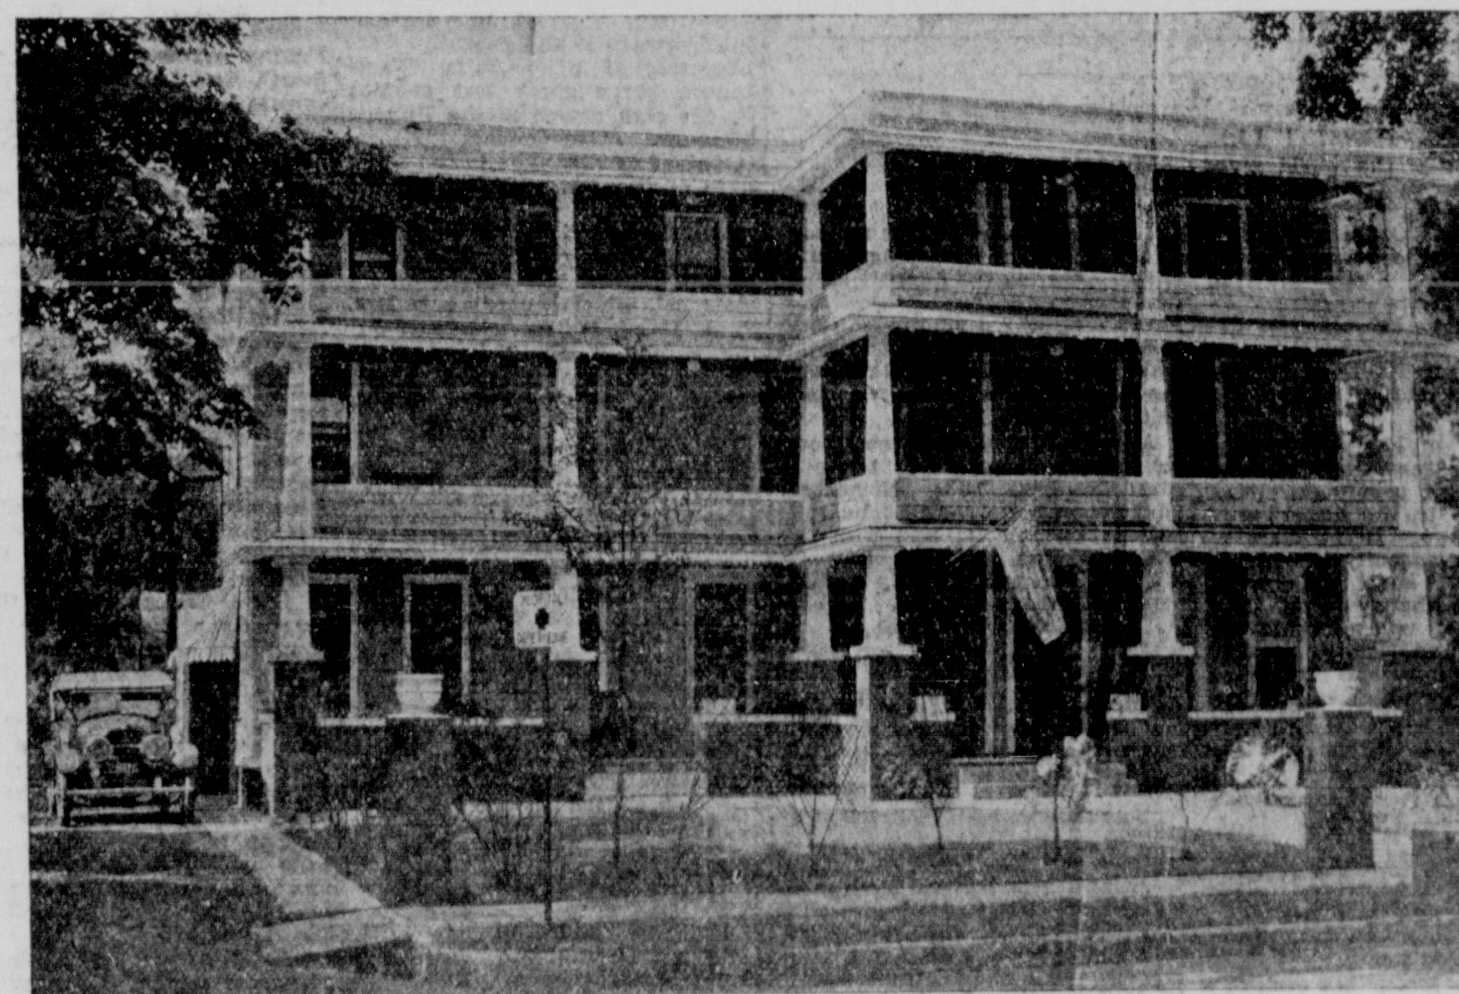

(INCORPORATED)

Jacksonville, Illinois

NO LONGER A PRIVATE HOSPITAL

NOW A

PUBLIC SURGICAL HOSPITAL  
With MEDICAL ANNEX

By recommendation of the advisory board, the New Home Sanitarium, Inc., a Private Surgical Hospital, becomes a Public Institution, for both Surgical and medical cases.

However, at the present time no tubercular or contagious will be received.

## The Doors Are Open To All

Reputable physicians and their cases on the same bases governing other public hospitals. The same high efficiency nursing is available, or private nurses may be had, as one wishes. Also the entire facilities of a strictly modern and thoroughly equipped hospital are at command.

There is ample room—67 rooms—sufficient help, eleven competent nurses, all of which makes this important change for the public welfare now possible.

Call Superintendent, MISS LOUISE ROSS, R. N.  
MISS M. LOUISE ROSS, R. N., becomes the superintendent of the institution.  
MISS M. C. VAUGHN, a graduate nurse dietitian, is in charge of the boarding department.

MISS L. M. TURNER, graduate nurse, is assistant to superintendent and supervisor of nurses.  
DR. W. P. WILLIAMS takes charge of laboratories.

## The New Arrangement

By the arrangements made Dr. A. H. Kenniebrew will be able to devote all of his time to surgical work and also will have an opportunity to get out and give some attention to old patients who call for him in a medical way.

## The Charity Department

A regularly organized charity department has been established in connection with this institution. Miss Susie Lynch, secretary to Dr. Kenniebrew, will receive all applications for care in this department and see that they receive due attention.

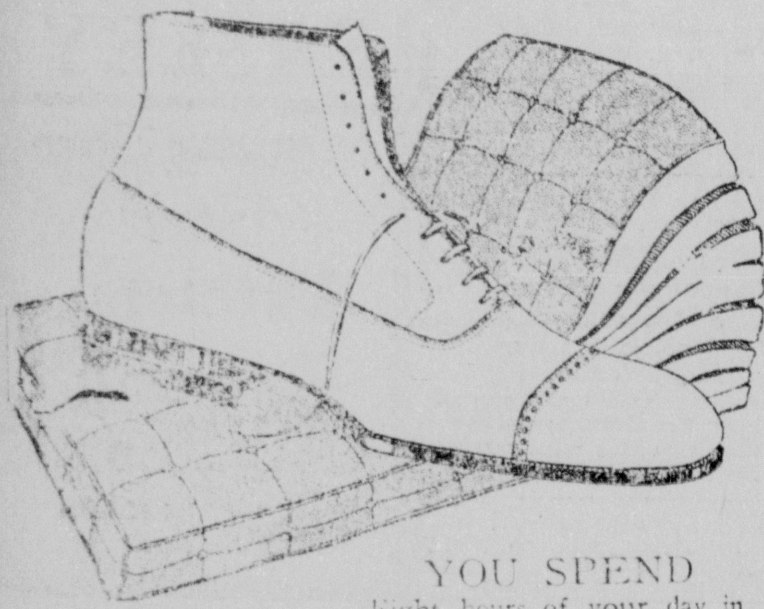

## The Public Welcome At All Times

"Results" made this institution, but the surgeon in charge, and its advisory board is constantly seeking ways of possible improvement. Suggestions by any one interested in such matters, or constructive criticism, will be gladly received by the management or the local advisory board and acted upon as their merits deserve. The board—

Rev. H. H. DeWitt, Pres.; Rev. R. H. Hackley; James Young, Treas.;  
M. Louise Ross, R. N., Sec'y; Dr. A. H. Kenniebrew, surgeon in charge.

### OLD EXPRESS HORSE

#### ON PENSION LIST

No concern in the world gives more attention to the condition and care of its horses than the express company. Come to think of it have you ever seen a sore-footed or ill-conditioned horse drawing an express wagon, in any city?

When a horse belonging to the company gets out of condition or starts on the decline he is discarded and a new one put to work in his place.

Old Nid, who has been going the rounds on the streets of Jacksonville for the past eight years, has been put in the discard and sent to Chicago. Eight years of service in any capacity is a record any horse may boast and few of them ever gave better service than Old Nid. He will miss the rich mellow oats and bright timothy hay that was given him by Hale and Evans, and which was grown on the fertile acres of Morgan county.

### RESIGNS POSITION

Miss Marie Smith has resigned her position with the Singer Sewing Machine Company to return to her home in the southern part of the state. Miss Smith was called home on account of the serious illness of her father. Mrs. Roy Gilbert has relieved Miss Smith in her work here.

### MANY HUNTERS

#### LICENSE ISSUED

Licenses issued to sportsmen to hunt in Morgan county since the first of last August number nearly one thousand, and this is not considered much of a hunting ground either. Among the licensees issued five women are included.

For trapping a separate license is required and the trapper must make a report of the animals and the kind he takes and to whom the pelts are sold.

August 1921, 212 persons took out license, September, 158 persons, October, 189; November, 266; December, 47, and January 2 persons became imbued with the desire to hunt.

License to hunt or trap cost the applicant \$1.

## Social Events

### Phi Nu Society Banquets

The annual initiation banquet of the Phi Nu society of Illinois Woman's College was held last evening at the Colonial Inn. Covers were laid for forty-five guests, the list including only the present members and alumnae of the society. The banquet was served at seven thirty o'clock and a delicious four course menu was served. Roses and dainty place cards were attractively used in table decorations.

Following the dinner Miss Verma Meschon, president of the society introduced Mrs. A. B. Applebee as toastmistress for the evening. The program of toasts was as follows:

Spring—Faye Fullerton.  
"How pleasing the world's prospectus lies,  
How tempting to go through Parnassus to the poet's eyes,  
Not beauty with her sweet surprise  
Can more inviting show."  
—Countess of Winchelsea.

Summer—Helen Byland.  
"The joyous time when pleasures pour  
Profusely round, and in their shower  
Hearts open like the season's rose."  
—Thomas Moore.

Winter—Margaret Todd.  
"But when comes winter  
With hail and storm  
An red fire roaring  
And ingle warm,  
Sing first sad going  
Of friends that part  
Then sing glad meeting  
And my love's heart."  
—Austin Dobson.

The new members of the Phi Nu in whose honor the annual banquet was given are: Faye Fullerton, Mary Lois Clark, Fay Holder, Mildred Homrighaus and Lucille Johnson. The committee in charge of the affair included: Josephine Craig, Eloise Calhoun, Mary Hall and Margaret Burmeister. Among alumnae members in the city to attend the banquet were Miss Dorothy Kennedy of Waverly and Miss Dorothy Hammond of Taylorville.

### Oceeca Camp Fire

Entertain at Pilgrim's Memorial. The girls of the Oceeca Camp fire group, of which Miss Katherine Forward is the guardian, were hostesses at a charming Washington party given last evening in the club rooms at the Pilgrim Memorial. The Oceeca girls entertained as their guests the members of the four other camp fire groups that have headquarters in the Pilgrim Memorial building.

The Campfire groups that were special guests last night were Yagaw, whose guardian is Mrs. F. J. Hehl, Okla.; whose guardian is Mrs. G. E. Stickney, Galata, whose guardian is Miss Ursula Fawcett and the Aokya group.

The guests were dressed in costume and the games, music and stunts were suggestive of Washington's birthday. Attractive refreshments in keeping with the season were served late in the evening. Reverend G. E. Stickney made a short address to the young people and the evening hours were pleasantly spent.

Margaret Marshall had charge of the refreshment committee for the affair. Miss Eleanor Stoldt was chairman of the invitation committee and Miss Margery Kitchner had charge of the entertainment.

### Birthday Party for

Everett Mason. Mr. and Mrs. Wall Mason entertained a company of about thirty young people recently, the event being a surprise party in honor of the seventeenth birthday of their son, Everett Mason. The evening was spent with games and music, and at a late hour delicious refreshments were served. The cutting of the birthday cake occasioned much merriment, La-

Rue McGinnis receiving the ring, Russel Arundel the dime, Floyd Mason the thimble and Opal Roe the needle.

The company included Misses Lillian Thompson, Opal Roe, Vina Logan, Dorothy Braner, Helen and Tina Hale, Marie Parlier, Esther Tuttle, Marie and Leta Mason; Messrs. Byron Winner, Russell Arundel, George Parlier, LaRue McGinnis, Edward Dinwidie, Dale Braner, George Jones, Paul and Ralph Ogle, Harold and Farrell McGinnis, Raymond Braner, John Franklin, Mr. and Mrs. Harry Braner and Mr. and Mrs. Floyd Goodpasture.

### Mr. and Mrs. Moss

#### Celebrate Anniversary.

Thursday was the 40th anniversary of the wedding of Mr. and Mrs. J. A. Moss, who reside northwest of the city. The occasion was fittingly observed, about 30 of the relatives and friends of Mr. and Mrs. Moss giving them a very pleasant surprise. Entertainment, and refreshments of ice cream, cake and coffee were served.

Those present were Mr. and Mrs. Edward Stanley, Mr. and Mrs. Henry Shaw, Mr. and Mrs. Elmer Smith, Mr. and Mrs. Herbert Challiner, Mr. and Mrs. Charles Ledbetter, Mr. and Mrs. Chris Horner, Mr. and Mrs. John Hayden, Mrs. E. G. Dewese and daughters Misses Pearl and Ruby Samuel Wood, Mr. and Mrs. Lloyd Moss and daughter Roberta.

### Party for Sunday School

#### Class.

Miss Emma Daniels entertained the members of her Sunday school class of the Congregational church at a Washington's birthday party given yesterday afternoon at the Pilgrim Memorial. The class is made up of about 12 boys and girls of the intermediate department and they spent a gay few hours yesterday afternoon playing all sorts of games suggestive of the season. The refreshments also carried out this idea for the ice cream was made in tiny molds of Washington and each little cake had a bright red cherry perched on the top.

### Girls Enjoy Social Evening.

Miss Grace Cook entertained the members of her Sunday school class of State Street church Friday evening at her home on South East street. A pleasant evening was passed with games, music and contests and the hostesses served dainty refreshments.

### Domestic Science Round Table

#### Gives Colonial Party.

A delightful Colonial party was given yesterday afternoon by the members of the Domestic Science Round Table of the Jacksonville Woman's Club, at the home of Mrs. W. L. Alexander on West State street. The affair was the regular monthly meeting but instead of a program the ladies enjoyed a pleasant get-together party. That the event was in keeping with the Washington's birthday season was evidenced by the charming costumes of Colonial days which a large number of the ladies wore. All the officers of the club and the hostess committee were dressed in this picturesque fashion of Revolutionary times.

The Alexander apartments were attractively decorated for the party with gay flags, miniature cherry trees, little hatched and other trophies suggestive of the Father of His Country. Delicious refreshments were served, and each guest received some kind of tiny favor in keeping with the occasion.

Mrs. Hugh Green was the chairman of the hostess committee for the afternoon and assisting her were Mrs. George B. Kendall, Mrs. G. A. Leach, Mrs. Keith Montgomery, Mrs. H. B. Mohr, Mrs. Stella Mahon, Mrs. Frank Matler, Mrs. Charles Lent, Miss Agnes Lutz, Mrs. L. E. O'Donnell, Miss Eva Mortimer, Mrs. A. J. Ogram, Mrs. J. H. O'Donnell, Miss Grace Hammerstaff, Mrs. Eugene Pyatt, Mrs. H. A. Perrin, Mrs. Jeanette Ogden, Mrs. Homer Potter, Mrs. A. Graef, Mrs. L. L. Abbott, Mrs. M. C. Hook, Mrs. D. B. Houston, Mrs. C. A. Johnson, Mrs. Sydney Jones, Mrs. Albert Curry, Mrs. Joseph Jackson, Miss Helen Merriman, Mrs. George T. Hamilton and Miss Mary Knollenburg.

### Faculty and Students

#### Guests at Reception.

Members of the faculty and student body of Illinois college, were the guests of President and Mrs. C. H. Rammekamp Saturday night. This was the annual reception and proved a most joyous event. Following a delightful custom of some years' standing, Miss Rammekamp presented several classes and the prizes awarded according to merit and ability, based upon the opinions of the judges.

As a fitting close to the junior playlet, "Five Stages in the Life of President C. H. Rammekamp," a huge birthday cake was presented to the president. The reception date happened to be the anniversary of the president's birthday, and so the juniors made the most of that fact. The cake was all ablaze with several dozen candles (the word "several" in this instance means three or four) and the presentation speech was made by Bernard Frazier.

In the opinion of the judges the juniors won the first prize, while the seniors carried off several honors. The senior presentation was a parody on "The Four Horsemen of the Apocalypse," staged in six scenes, and was very cleverly done.

The sophomores used a burlesque on an old Greek tragedy

## ATTENDED FUNERAL OF RELATIVE IN OHIO

C. L. DePew Returns From Willoughby, Ohio, Where he Attended Funeral of Aunt, Mrs. Angie M. Cook.

C. L. DePew returned to the city last night from Willoughby, Ohio, where he went to attend the funeral of his aunt, Mrs. Angie M. Cook. The deceased was formerly a resident of this city and is well remembered by a number of local people.

The funeral was held Friday morning at the family residence in Willoughby, in charge of Rev. Mr. Stivers, of the Children's Home at Cleveland, a former pastor and a close personal friend of the deceased. Owing to an epidemic of flu in Freedom, Ohio, and the illness of nearly all the relatives there, the remains could not be taken there for interment. They were placed in a vault at Willoughby until some later time.

Among those in attendance at the funeral were Miss Lulu Crouthers of Bloomington, a niece of Mrs. Cook, and James C. Willingham, of Oklahoma City, a grandson.

On the return trip Mr. DePew stopped at Akron, Ohio, for a few hours' visit at the home of Mrs. Fay Reid. Mrs. Reid before her marriage was Miss Moellering and was at one time a teacher at the Woman's College here.

In a newspaper office scene the freshmen turned toward the future in hurried vein and visualized happenings in the lives of members of the class. Dean Scott was also included in this forward view.

The judges had no easy task as all the classes were ably represented and it was necessary to spend some time in deliberation before the prize winners could be announced. Following the plays refreshments were served and an hour spent in a social way. The hospitality of the Rammekamp home is a matter of general knowledge and it was at its best for this Saturday night event.

### HEADEN FARM IS SOLD AT AUCTION

Leslie Lewis Buys Excellent Eighty-Acre Tract at \$231 Per Acre.

Leslie Lewis yesterday purchased at public sale the 80 acre farm of W. C. Headon, located seven miles west of Jacksonville. The land was purchased at \$231 per acre, which is accounted a very satisfactory price under present conditions. C. J. Wright and J. L. Henry were the auctioneers.

The farm is about two miles west of the Point church and three or four years ago was improved with a seven or eight room house of modern type. It is heated by steam and has other conveniences. The various farm buildings are in excellent condition and the farm is one of the best improved in that part of the county.

The sale price does not represent anything like the peak of prices, but does indicate that land is in good demand. Three or four persons made bids on the property and Mr. Lewis purchased the farm on a bid just 59 cents higher than the next lower figure.

## WOMEN KNEW HOW TO DRESS HALF CENTURY AGO AS THEY DO NOW

Flashy Colored Hosiery and Other Smart  
Styles Were Worn by Belles of Fifty Years  
Ago—Girls of the Present Day Find That  
Many of Their New Styles Are Very Old

(By The Associated Press)  
CHICAGO, Ill., Feb. 25.—Flashy colored hosiery with open work; smooth fitting waists that outline the figure from throat to hips; gloves to the elbows; side button shoes, pointed and box toed; immense poke bonnets; deer skin bodices; dresses of myrtle green silks, camel's hair, satin and velvet. Such were the styles of half a century ago that co-eds of the University of Chicago are showing symptoms of reviving.

This apparent renaissance is indicated by the steadily increasing demand at the University library for Godey's "Lady's Book and Magazine," a periodical that portrayed milady's styles more than fifty years from 1832. So strongly do the co-eds crave a glance at the gaily tinted color plates of frocks and gowns that were worn in the middle of the last century that the library is seeking additional copies of the "Lady's Book" to meet the demand.

Many things the co-eds are learning from their "Lady's Book" study; styles that they believed were ultra modern, they find, were common to their grandmothers.

Hats, gowns, shoes, hose, gloves, bustles, bodices, cloaks, parasols, sashes, ribbons and shawls—all are in the "Lady's Book." Every article of a woman's apparel is there—except lingerie. The co-eds if they are interested in learning what the belles of fifty years ago wore beneath their sweeping gowns, must look elsewhere. Mr. Godey's otherwise excellent periodical is strangely silent in this regard in marked contrast with present day fashion magazines.

Ears Freely Worn.  
Ears, the co-eds find, were freely "worn." Mostly they were adorned with jewelry, but in any case they were entirely visible.

The "Lady's Book" for 1832, a volume that is finding particular favor with the co-eds, remarks at some length on every article of outer apparel and the equipment necessary to add style to the woman of that day. Of winter bonnets, for example, it says: "Immense poke bonnets of plush, lined with a contrasting color, have an Alsacian bow and bird at one side."

Other style comments are: "One of the latest novelties, (1832) is the bodices of unglazed or deer skin either plain or embroidered, perfectly, too perfectly, moulding the figure. Many ladies have their monograms embroidered upon the left side of the bodice."

"The new spring costumes have long, smooth fitting waists that outline the figure from throat to hips where they are met by full paniers of sash drapery. The general effect is of long, slender waists and large hips."

"Gloves are longer than ever. They are not tight fitting all the way up but rippling over the arm."

Colored Hosiery Popular.  
"Colored hosiery continues popular. Black silk stockings are the most stylish. Terra cotta and rose are the new shades; others are very dark garnet, cardinal and brighter turkey red, porcelain, all blue, tan, bronze and dark green. Lace work, designs and hand embroidery are the ornaments for hose."

"Large, almost sun umbrellas, are the vogue. They have simple, rustic handles, but there the simplicity ends. Covers are of the handsomest dress goods, even

## CALL ATTENTION TO TREATMENT OF DUMB ANIMALS

Presbyterian Church Issues  
Its Ten Commandments

(By The Associated Press)  
PITTSBURGH, Pa., Feb. 25.—(By the A. P.)—"Ten Commandments of Kindness" to regulate conduct toward animals have just been issued by the department of Human Education, Presbyterian Church of the United States. The Commandments point out man's duty to animals and are published with a view toward minimizing useless cruelty and killing.

The Commandments are:  
1—Thou shalt not deal cruelly with the creatures of God's creation, placed under thy domination but in kindness, justice and mercy shalt thou administer thy guardianship over beast, bird and cattle seeking to serve in the spirit of thy Creator.

2—Thou shalt not delight thyself in graven images but rather in tender mercies to those who depend upon thy guardianship. Thou shalt not lay blame of punishment unwarranted and who have no means of asserting their rights, wherefore thou art to them the adjudicator of righteousness in their midst; for the Lord thy God is a jealous God, remembering thy unfaithfulness and thy cruelties to all His creatures and visiting the errors of thy way upon thy children down throughout the generations, in that thou hast set a bad example unto them and hast by word and deed led them to disrespect justice and mercy in dealing with defenseless creatures.

3—Thou shalt not curse thine cattle nor inflict vengeance upon any of God's creatures for the Lord will not hold him guiltless who disregards his sabbatical rights of God's creatures and practice them sacrilegiously. Every beast of burden and every animal in thy service shall have its days and fitting seasons of rest where by the drudge of toil in thy service may be comfortably mingled with the joy of living. With season and consideration thou shalt assign their tasks and with equal care thou shalt provide food, rest, succor, mercy and those things which make for the natural joy of living.

4—Remember, the sabbatical rights of God's creatures and practice them sacrilegiously. Every beast of burden and every animal in thy service shall have its days and fitting seasons of rest where by the drudge of toil in thy service may be comfortably mingled with the joy of living. With season and consideration thou shalt assign their tasks and with equal care thou shalt provide food, rest, succor, mercy and those things which make for the natural joy of living.

5—Honor and respect thy guardianship over the animals which have been thy faithful servants and desert them not in an evil day; for by so doing, thou mayest prolong thy days and increase thy joys in the land which the Lord thy God giveth thee.

6—Thou shalt not kill for the joy of killing; for the sport of killing; for contest in skill; for selfish gain. For the righteous man regardeth the life of his beast.

7—Thou shalt not commit thyself to the lusts of bloody contests nor seek to look upon the cock-fight, the live pigeon shoot, the bull-fight and all such atrocious acts.

8—Thou shalt not steal, destroy, nor take unto thyself selfishly or wantonly that which belongs to the comfort and needs of thy animals.

9—Thou shalt not bear false witness for paltry gain to thyself whereby God's creatures suffer hunger, anguish or torture. Let the testimony of thy guardianship be above thy lust for gain.

10—Thou shalt not covet the bird's plumage, nor the animal's fur; thou shalt not covet the robin's nest nor her young by her side, nor the pigeon the freedom of the air, nor the deer the joy of the lair.

MALES AND FEMALES  
EQUAL IN PHILIPPINES

MANILA, P. I.—(By the A. P.)—The native male and female population of the Philippine Islands is almost equal in numbers there being only 134 more native women than men, according to a bulletin issued by the census bureau and just made public. The men number 4,715,485 and the women 4,715,619.

According to the census bureau there are 2,896,336 bachelors and 2,699,991 unmarried native women in the islands.

## Central West Recovering Says Babson

Economist Sees Diversity as Only Salvation of  
Farming Districts

Continuing the report of his personal survey on business conditions, Roger W. Babson, famous economist outlines his findings in the western central States as follows:

"A year ago I found the worst conditions in these western central states, the section of the country lying between Buffalo, Pittsburgh and Atlanta on the east, Chicago and St. Louis on the west, Detroit, Michigan and Akron, Ohio, were then the center of the depression area. The storm center having moved west from New England during 1920. Today, however, I find conditions in this section of the country much improved. The worst is over. While definite improvement is not yet evident business is gradually but steadily turning upward."

"The best sections of this district as far as sales are concerned are found in the states supported by a diversity of interests. Ohio for instance is in a very fair condition. Northern Indiana and Illinois also look relatively good. Medium sized cities such as South Bend and Port Wayne offer good sales possibilities."

"Although Detroit has been severely hit owing to the unnatural boom it experienced during the recent period of prosperity, other smaller cities with automobile industries are doing well. This simply illustrates the basic truth I have reiterated during the past years, namely that communities should not be exclusively agricultural. Industrial communities should seek to develop agricultural environments while agricultural communities should develop industries."

"The coal mining regions of the central western states have been quiet for some months. Now, however, in face of the threatened strike business is picking up. The miners make relatively large earnings when they work. The purchasing power of these coal centers should be greater this coming spring. A large proportion of these mines are unorganized. This group should be especially prosperous in case of a strike."

"Production of bituminous coal during 1921, by the way, was only 4,000,000,000 tons, or 27 percent less than the previous year. Let me say, however, that after it is evident that there will be nothing to fear from the threatened strike, further declines in the price of bituminous coal will be in order. Altho this will mean lower wages and lower profits for the operators, it should mean more days of work and ultimately benefit all interests."

"The iron and copper districts of the lake regions are still very dull. The finished product industries of these lines are running only 40 percent of their capacity. Many manufacturers are shut down entirely. Statistics, however, indicate that as money rates decline, railroad, public utilities and municipalities will be able to sell bonds for permanent improvements. The demand for iron and copper will increase accordingly."

With this in view I prophesy that 1922 will show a great improvement over 1921 in this section. A stimulus will first appear with the opening of the lakes when the ice goes out in March and April."

"The farming sections are still suffering the headache of the inevitable result of their intoxication during the prosperous years of the war. One with any heart cannot help but be moved by the stories of disappointment and loss encountered by the farmers of these western central states. Corn and wheat are bringing less than nothing. The banks are pressing the farmers for payment of interest and there is little prospect for higher prices in sight. But the handwriting on the wall was very clear and the farmer who took the trouble to watch conditions closely foresaw the inevitable and saved his money, hence, he is not in trouble today. Instead of unloading his 'easy money' for high priced land or low priced oil stocks, he saved it and is not suffering today. The salvation of the farmer must be wrought thru the diversity of interests. The farmer who raises stock, sells cream and grows four or five different crops, is not at the mercy of the sudden price shift in any one line. The man who gambles in wheat on some one else's land is playing a margin and if the market happens to go against him he loses everything he has."

"An analysis of the figures making up the Babsonchart shows that the trade of the western states run 18 percent below normal compared with a low 20 percent a few weeks ago. Cincinnati, Chicago and Cleveland, are operating at about 80 percent of their normal capacity. Canton and Akron are up to 85 percent, while Columbus and Toledo, Ohio, are back to 95 percent of normal. Of all the cities in those western central states Ohio figures show that Dayton, Ohio with its 150,000 people, is today the most prosperous."

"An analysis of the 1922 sales prospects in these particular sections furnishes ground for discriminating optimism. As the year develops, confidence will return first in one section and then in

## NOW BEST TIME TO FIGHT CORN ROOT APHIS-FLINT

State Entomologist Talks of  
Pests That Bother  
Corn

(By The Associated Press)  
URBANA, Ill., Feb. 25.—This is the best season of the year for fighting the corn root aphid, the little bluish-green plant louse is always more or less of a pest in the corn fields of Illinois, according to W. P. Flint, state entomologist.

At this time of the year this plant louse is in the egg stage, carefully stored away in the lower chambers of the nests of the brown corn field ant. About the time the ground warms up in the spring sufficiently for the young smartweeds to grow, these eggs hatch, and the ants carry the young aphids to the roots of various grasses, but especially on to the roots of the young smartweeds. If one plant becomes too crowded, they carry them over to another, often covering root systems of a number of smartweed plants, Mr. Flint states.

"The best method so far found for destroying the aphids in the field is to give a thorough deep plowing in the spring running the plow 6 to 7 inches below the surface, which will throw out the ant's nests, eggs of the root lice, and all, according to the state entomologist. "If the furrow is run at a lesser depth, the ant's nests will not be split open, the lower chamber remaining undisturbed beneath the bottom of the furrow, and as a rule these will contain the aphid's eggs."

"If this deep plowing is followed by two or three double diskings, at two or three day intervals, and the ant's nests will be so completely broken up and their eggs and young and the eggs of the root lice so scattered through the soil that it is impossible for them to re-establish their colony and secure root lice early enough in the season to cause any serious damage to the corn. The root louse has the most detrimental effect on the corn plant during the first month after the seed has germinated. At this time the root system of the plant is small, and it does not have sufficient vigor to withstand the attack of many of these little sucking lice."

"This simple method of handling this pest, wherever it has been followed, has given good results and showed a large measure of control."

The Bishop of London, its nearest neighbor in a ecclesiastical sense, has no jurisdiction of any sort either within the church or the adjoining precincts. He can put on his robes inside the Abbey only by permission of the Dean, who is absolutely supreme. The same rule applies to the Archbishop of Canterbury. Save at a coronation, he can officiate only by the consent of the Dean.

There was a time, not very far distant, when it was customary to read a solemn protest in the Jerusalem Chamber prior to any ecclesiastical function at which the Primate of All England was taking part.

Dean Stanley was most punctilious about the due reading of this protest, to which the Archbishop would reply in suitable language, stating that his presence must not be taken to imply in the slightest any desire to override the peculiar privileges of the Collegiate church of St. Peter in Westminster.

This protest is rarely heard nowadays, but it is customary for the Dean of Westminster in some way to give some token of his own special position at any function at which the Archbishop or other prelate may be taking part.

The royal wedding is an exceptional ceremony altogether; indeed there is practically no precedent for it so far as the Abbey is concerned. It is an understood thing that it is only fitting for the Archbishop to tie the knot on this great occasion.

On the other hand, it may be taken for granted that the Dean of Westminster will assert his position in all due form and order by pronouncing one of the benedictions.

## GRANT'S ANNIVERSARY TO BE OBSERVED IN FITTING MANNER

One Hundredth Anniversary to Be Observed  
Thruout the Country—President Harding  
is to Speak at Point Pleasant, Ohio, Grant's  
Birthplace—Memorial is to Be Unveiled

(By The Associated Press)  
WASHINGTON, Feb. 25.—The one hundredth anniversary of the birth of Ulysses S. Grant will be observed thruout the country on April 27.

President Harding has promised to speak at the unveiling of a tablet at the great union general's birthplace, Point Pleasant, Ohio, and on the same day the Grant Memorial which has been so many years in course of construction at the base of the capitol in Washington will be dedicated with suitable ceremonies.

The movement for the hundredth birthday anniversary celebration was set in motion at the fifty fifth national encampment of the Grand Army of the Republic at Indianapolis last September. An executive committee headed by Colonel Thomas S. Hopkins of Washington was appointed by Lewis S. Pilcher, commander-in-chief and a national committee of arrangements was created. It is headed by President Harding as honorary chairman.

Among the honorary vice-chairmen are Vice-president Coolidge, Speaker Gillette, Chief Justice Taft, Secretaries Weeks and Denby, General Pershing, Senators Nelson and Warren, Representatives Osborne and Yates, Governors Davis of Ohio, and Miller of New York, and the head of women's organizations related to the Grand Army as well as General Miles, commander-in-chief of the Loyal Legion and Hanford MacNider, national commander of the American Legion.

The nature and scope of the celebration is indicated in the following from the resolution adopted at the Grand Army encampment in Indianapolis, which recommended:

"That the National Government be requested to take appropriate action for the observance of the anniversary and the congress of the United States take such measures as may be necessary to assure the dedication of the Grant Memorial at Washington on the 17th of April, next."

## CONSERVATORY NOTES

The date for the recital of Alma Mehus, pianist, and Margaret Morris, violinist, has been set for March 16. These young ladies will appear under the auspices of the Children's Department, which is making this venture in the course of bringing young artists here in recital at minimum prices—a plan which will be continued next year. Both girls are brilliant performers but it is of significance that neither of them has been tempted to neglect the theoretical branches of their art and both have to their credit several worthy compositions. One a "Prelude" by Alma Mehus, will be played at the Forest-Mehus recital March 9. Miss Morris and Miss Mehus are appearing continually in Chicago and return engagements are the rule with them. For instance, Miss Alma Mehus has appeared at the Southern Woman's Club two times; Woodlawn Woman's Club, 3 times; South Shore Music Club 7 times; Chicago Chapter of D. A. R., times in the past two seasons.

Miss Belle Mehus, pianist, and Miss Suzanne Rinehart, violinist played for the high school students at Waverly, Wednesday morning.

Miss Florence Kirby, pianist, played a group of solos at the assembly of the Jacksonville High School Thursday morning.

Mrs. Forest, soprano, and Miss Belle Mehus, pianist, will give a joint recital March 9th. This is the last of the series of faculty recitals for this year. The public is cordially invited.  
Miss Belle Mehus is spending this week at her home in Chicago. The music lovers of Jacksonville are pleased to hear that Frances Ingram will sing in recital at Music Hall again Monday evening February 27th. She has long been recognized as one of the stars of first magnitude in the firmament of song. Besides possessing a beautiful contralto voice, she has an extraordinary personality which combines to make her an artist adored on the concert platform as well as applauded on the operatic stage. Her former appearance here left such a favorable impression that it is quite needless to say more about her ability.

## NORTONVILLE

On Wednesday night, Feb. 22, the Modern Woodman conferred the degree of woodcraft on five or six candidates. After the work was exemplified the ladies served refreshments consisting of sandwiches, pie and coffee to nearly one hundred.

Gussie Henry moved to his father's place just east of the church Wednesday.

Mrs. Mary Samples is ill with pneumonia.  
J. P. Anderson is on the sick list.  
Wilburn Grider and Stanley Rawlings of Scottville spent Wednesday night with the latter's grandfather, J. Y. Smith.

The young folks enjoyed a dance at the Earl Bend's home Tuesday night. Several coming from Scottville and Franklin.

## FARM BUREAU NOTES

A great deal of interest is being manifested by the young people of the county in the Agricultural clubs that are being organized under the auspices of the Farm Bureau association. A meeting was held yesterday afternoon for the purpose of organizing these clubs and a large number of boys and girls were present. Twenty-one boys and girls enrolled for Pig Club work; five for Poultry club work; one for the Flower club and one for the Strawberry club.

A group of ladies met yesterday afternoon at the Farm Bureau office for the purpose of taking steps to organize a farm produce exchange bureau. At this meeting a resolution was introduced asking the daily and county papers to publish the local market reports, telling what price the producer is getting for his produce and what price the retailer is selling it for. The women expressed a desire that such reports be published in all the daily papers with both county and city circulation. A resolution was also passed asking for the assistance of the Farm Bureau in establishing a produce exchange in Jacksonville, where the women may central market and dispose of them. It was asked that steps be taken at once to put such an exchange in operation at once.

The following committee was named to make the necessary plans for establishing the exchange: Mrs. W. G. Wolfe, Mrs. H. J. Rice, Mrs. Frank Ransom, Mrs. G. R. Gibson and Mrs. F. L. Green. This committee will meet the coming week to formulate plans.

The Rees Livestock Shipping Association has been a consistent supporter of the livestock marketing plan of the I. A. A. in shipping every car of stock to the new co-operative commission at the National Stock Yards.

C. L. Hawker thinks the new system will win out, although it is in for some hard knocks. Everyone will be interested in the report of this co-operative firm at the end of its first year.

Mrs. Roy McKinney of Lynnhaven marketed fifty Barred Rocks culled from her flock recently. They averaged \$1.76 per head. When it comes to being sold over the scale, the Barred Rocks certainly give an account of themselves.

There is a brisk demand for clover seed with comparatively limited stocks in the hands of both dealers and growers. Farmers are planning on a larger acreage of legumes than usual and this is echoed in the demand for seed at this time. Repeated tests in many counties indicate that the best results in seeding clover on wheat, are obtained by seeding the first part of March.

Morgan county now has two strictly co-operative farmers' elevators. Alexander's was organized as such and Arnold recently changed from a joint stock company to a co-operative organization. The time is not far distant when all farmers' elevators will find it to their advantage to re-

organize on the co-operative plan. President Charles S. Black of the Farm Bureau has named a program of work committee consisting of C. H. Gibbs, Chairman, A. H. Bartelheim, E. R. Hemmings, J. P. Moeller, and Ed Scott. This committee will prepare a service survey plan to be submitted to all members of the Farm Bureau in the near future. When these survey blanks are collected the requests for personal and community service will be worked into a program of work. The executive committee really wishes to find out what service members really expect from the National State and County Organizations.

## INFORMATION FOR OUR FORMER FRIENDS.

Some years ago the Urbana, Illinois station made thirty-five trials to determine the increased yield resulting from drilling oats in place of broad casting.

In each of these trials two bushels of seed per acre were drilled and a like amount was broadcasted. The drilled yield was 47 1-2 bushels per acre and the broadcast oats yield was 40.6 bushels.

In another series of experiments thirty-eight trials were made in which two bushels were drilled per acre in competition with three bushels per acre sowed broadcast whereas, the gain of 3 1-2 bushels per acre in yield with 1 bushel per acre less seed in favor of drilled oats.

On this basis, if all farmers in Illinois would drill two bushels of oats per acre in place of broadcasting three bushels per acre, the increased yield would amount to 11,315,917 bushels and if worth 40c per bushel would equal \$4,526,366.90 plus a saving of 1 bushel of seed oats which at the same price would be a saving of \$1,085,882.00, making a total saving to the farmers of our state of \$5,612,248.90.

The question is, are we wishing to reap the benefit of the knowledge to us by our University?

Gentlemen: RE Claim No. 36237—C. H. Joesting.

Replying to yours of Feb. 14th, you have apparently overlooked the fact that this is an Increasing Income policy and the weekly indemnity is \$10.00 instead of \$5.00. You can, therefore, issue another draft for an additional \$15.00 as, of course, it is our intention to pay exactly what a policy calls for.

Very truly yours,

## Better Clothes at Less Cost

Many men once thought that the best custom made clothes were the best clothes to buy.

Lately these very same men found that certain clothes fit as well, are styled better, are made of the same fine fabrics and are hand tailored—but cost about half, because they are made ready-to-put-on—

They are L System Clothes

We guarantee the new Spring super-models here now on display to give super-satisfaction in every way. And all without the time and trouble of try-ons. New Sport models—in new Scotch tweeds.

Accustom yourself to L System Clothes—high as the better custom-mades in quality but not in price.

**LUKEMAN MOTOR CO.**  
TO HANDLE LINCOLN

Has Arranged to Represent Locally  
the High Grade Car Manufactured  
by Leland Company Recently  
Purchased By Henry Ford.

As has been noticed in the recent news dispatches, the Ford Motor Company purchased outright the Leland Company of Detroit, makers of the famous "Lincoln" car, and Ford dealers throughout the country have been given the first chance to handle these cars in connection with Ford products.

George Lukeman, of the local Ford agency, who has just returned from an extensive trip through the southern states, stopped in St. Louis and immediately made arrangements to handle the "Lincoln" in this territory and to have models here for exhibition at the Auto Show to be held the last week of March. Mr. Lukeman is enthusiastic about the "Lincoln" and considers himself fortunate in being able to represent the company here.

With more than eight thousand Ford dealers already arranging to handle the "Lincoln" it means that there will be just this many more service stations in the United States properly equipped to give adequate service to owners of large cars, a feature of the business that has been somewhat lacking in the past.

The past policy of the Leland Company will be adhered to strictly, and improved upon if found possible, and that is to turn out the finest motor car in the world. Measured by the best standards it will be the most attractive, enduring, dependable car on the road, comfortable riding and a fascinating car to drive, particular attention being given to motor performance and fine coach work.

An attractive feature is that while the Leland plant was conceded to be unequalled in point of equipment, it is expected that under the Ford management backed by its immense buying ability and wonderful organization, that it will be possible to turn out the

"Lincoln"—the Leland company's superior car — for about twelve hundred dollars less than was possible before being taken over by Henry Ford.

The Lukeman Motor Company is making arrangements to receive these cars and to be in position to give genuine service to owners of these and other high grade motor cars.

**PUBLIC NOTICE**  
The Illinois Commerce Commission under their order No. 11-734, dated at Springfield, Illinois, February 8, 1922, granted a temporary increase in rates, and provided for a classification of service for the Illinois Telephone Company operating in Morgan, Greene and Scott counties, and further provided that the said increase might become effective February 1, 1922, or March 1, 1922 at the option of The Illinois Telephone Company. After consideration the Company decided that in order that its patrons might all understand and have ample time to decide upon the class of service which each desired, the rates would not be made effective until March 1, 1922. The official schedule of rates is as follows:

**Rules, Regulations and Conditions of Service**  
1. To establish credit, an applicant who is unknown to the Company is required to make an advance payment for not to exceed three month's service.  
2. Following the acceptance of the Company of an application for service, the Company assigns a telephone number, but this number is not a part of the contract and may be changed at any time at the discretion of the Company.  
3. Under average conditions the Company requires ten days to arrange for and complete an order to install or move a telephone.  
4. To guard against interference with the service unauthorized attachments with the telephone lines or instruments are prohibited.  
5. For any complete failure of service of which notice in writing has been sent to the Company's Local Office, and which has continued for more than forty-eight hours thereafter, an abatement of the contract charge shall be made for the period of such interruption.  
6. The continuous use of a party line is limited to five minutes. Party line subscribers are necessarily associated on the line with others located nearest to them and using the same class of service. Mutual accommodations usual in public service of any kind, where two or more persons are jointly concerned, should be extended between party line users.  
7. Where the service of a subscriber is temporarily discontinued and the telephone number is retained during absence on vacation, no charge shall be made for the first two months but one half the regular rental shall be charged thereafter during such period, provided written notice of the temporary discontinuance of service is given to the Company in advance.  
8. Churches, Hospitals, and other Charitable Institutions not supported by public taxation take residence rates for Individual Two-party, Four-party line and Extension service where quoted.  
9. Hospitals and Dormitories, such as Y. M. C. A., Y. W. C. A., and School Dormitories desiring Private Branch Service may be classified as hotels and take the same rate.  
Complete Schedules of rates may be inspected by the public at any of the local offices of the Company.

District Manager,  
The Illinois Telephone Company.

## GRANT'S ANNIVERSARY TO BE OBSERVED IN FITTING MANNER

(Continued From Page Nine.)  
and churches of the land, that the memorable occasion may not pass without leaving deep and abiding impressions upon the hearts of the young, and strengthening the faith of those who believe in the God of our fathers and in the priceless boon of civil and religious liberty. Your committee further recommends that the incoming commander-in-chief be authorized to formulate a program or order of exercises for the use of posts on that occasion, and that all members of the Grand Army of the Republic, in so far as they may be able, shall participate in some simple yet direct way in honoring the memory of Ulysses S. Grant.

"That all patriotic societies and organizations representing the several wars in which the United States has at any time participated, be requested to unite in the celebration of the anniversary, and that the Woman's Relief Corps, Auxiliary to the Grand Army of the Republic, the Ladies' of the Grand Army of the Republic, and all orders allied to the Grand Army of the Republic, be invited to join with us in honoring the memory of General Grant."

The memorial in the Botanical Garden at the foot of the capitol, which will be dedicated simultaneously with the exercises of General Grant's birthplace at Point Pleasant, O., was conceived by and erected with funds gathered by the surviving veterans of the army of Tennessee. Many vexatious delays occurred after the sculptor began his work but the handsome bronze groups were completed at last. The dedication will be under the auspices of a committee including Senator Brandegee of Connecticut; Secretary Weeks, Bishop Fellows of Chicago, and Colonel Clarence O. Sherrill of the army engineer corps.

Was National Hero.  
Grant's birthday anniversary comes almost on the fifty-seventh anniversary of General Lee's surrender at Appomattox which took place on April 9, 1865. At the close of the civil war, Grant's name was more frequently on the lips of the people than that of Lincoln. In 1869 he became President and was re-elected to a second term. So his name continued to be before the people. After retiring from the presidency in 1877 he was for a time less in the public eye, but he still was a favorite. His unfortunate business venture some years later excited the sympathy and concerns of his friends. It was known that he was reduced almost to poverty. Then followed his illness from the dread disease of which so little is known even now.

When Grant began the preparation of his memoirs, he was ill. It became known he was hoping that, when published, the two volumes would yield a competence for his family. His sufferings increased as the work went on, and at last, it became a race between him and death while mankind watched and waited in anxiety for the result. Grant conquered, for he lived to complete the work. That accomplished, he welcomed the relief from his sufferings that soon came.

That was nearly thirty-seven years ago. Other wars have intervened, great national and international problems have arisen and commanded the attention of the people, and thus the name and the fame of Ulysses S. Grant have not figured so prominently with the people as they did forty or fifty years ago.  
But during the more than half a century those veterans served under him and who loved him, have never wavered in their devotion to his memory. The veterans of the civil war are fast disappearing. In a few years there will be none left. But old and feeble though they be, the mention of the name of their leader still stirs their martial spirit and awakens fond memories.

Said the Cookie  
to the Jelly Ball:

"You may look different than I do—but one thing is certain—we're both made from the same standard Federal sweet dough quality formula that has made us famous everywhere."

Federal Bread is made up to a standard—not down to a price.

Upkeep of the Hawaiian Department of the United States army for the calendar year 1921 cost \$11,729,605.

The United States Army Air Service has 35 aviation squadrons 11 balloon companies, and six airship companies.

An admiral in the British navy receives \$24,594 annually, an Italian admiral \$11,615, and an American admiral \$10,000.

Negro ex-service men throughout the country are forming an organization to be known as the Negro American veterans of the World War.

Secretaries, dietitians, and technicians who served with the American forces have been declared ineligible to membership in the American Legion.

In a court inquiry, it was stated that L. Wilson Gerhart of Reading, Pa., made \$21,000 shooting craps, while serving in the army during the World War.

Chinese ex-soldiers of the American Legion in New York City are to be employed in rounding up 50 slackers of their race, supposed to be hiding in Chinatown.

Of the 119,205 men in the United States navy 109,457 are native born, 5829 were born in Guam, Samoa, the Philippine or Virgin Islands, and 3,567 are naturalized citizens.

The military organization, the Siberian Veterans in New York City, is made up of all Americans who saw war service in Siberia. Woodrow Wilson is honorary president of the organization.

Since the organization of the Boy Scouts of America, 12 years ago, more than 2,000,000 young men in the United States have taken the pledges, and 530,000 boys are enrolled as active members.

Congressmen in Washington who served in the World War are pressing the government to act for the extradition of Grover C. Bergnow a fugitive in Germany.

The American Legion has set October 16, 17, 18, 19 and 20 as the dates for its fourth national convention which is to be held in New Orleans, La. The city plans to raise 150,000 for entertainment.

King Victor Emmanuel of Italy has awarded the Croce di Guerra posthumously to the late Lieutenant Colonel Charles W. Whittlesey former commander of the "Lost Battalion." Men with ranks of privates to lieutenants were similarly honored.

The oldest and youngest members of the World War are members of the same post of the American Legion in Washington, D. C. They are W. N. Williams, who saw active duty at 80 years of age, and S. F. Tillman, who enlisted at 13.

Each citizen of the United States will pay less than \$3 a year for the support of the regular army. The total amount set aside for the army for 1923 is \$305,822, 084. The amount set aside for the use of the navy is \$423,052,835 or about \$4 a person.

It has been suggested in Washington that the Veteran battleship of the United States navy to be scrapped under the naval limitation treaty, be sunk at sea with full military honors to symbolize ratification of the pact which will end competitive naval building among the five great naval powers.

Of the 75,000 former service men registered at the Employment Bureau in New York City who are still out of work 12 of the men were commissioned as majors in the United States army during the World War, five were naval commanders, 27 were captains, and nearly 100 were lieutenants.

The dome of the gigantic assembly hall in the National Victory Memorial Building, which is in process of erection in Washington D. C., will be covered with exactly 5,016,823 service stars of which 129,979 will be in gold. This dome really will be an American service flag, bespangled with stars in geographical groups.

On the basis of estimates prepared by fiscal officers of the army, navy and marine corps, the soldiers' bonus would cost the Federal government approximately \$2,500,000,000. This total is predicted upon the assumption that 50 per cent of the men who served with the army and navy and marine corps, will take cash.

Because most all of the noted successful leaders had names containing at the very most, only 8 letters, "Brevity" is the last answer to the mooted question "Who Won the War?" On the successful side are placed the names of Folk, Haig, Diaz, Jacques and Pershing. On the defeated side are placed such names as Von Hindenburg, Von Ludendorff and Prince Rupprecht.

Frances Ingram Will Furnish Program for Artist Series—Has Large Following Here.

Director Henry Ward Pearson of the College of Music is being warmly congratulated for having secured Frances Ingram to take the place of Merna Sharlow who was to have appeared in the Artists Series on next Monday evening, February 27. Miss Shawlow cabled cancelling all of her American dates the day she was to have arrived in New York. Miss Ingram was secured by Director Pearson the same day the message was received from Sharlow. Miss Ingram has long been recognized as a star of the first magnitude. She possesses all the requisites of a great vocal genius and is as successful or more so in concert as in opera.

Miss Ingram will present the following well-balanced program in Music hall next Monday evening, February 27. She made such a tremendous success in her appearance here three years ago that a capacity house is anticipated for her on next Monday evening:

- (a) Lungi dal caro bene . . . . . Secchi
- (b) I've been roaming . . . . . Old English
- (c) The Nightingales of Lincoln's

- (a) Eros . . . . . Kursteiner
- (b) An Evening Song . . . . . Gilberte
- (c) There is no Death . . . . . O'Hara

Aria—Amour "Viens ailer . . . . . Saint Saens (From Sampson and Delilah.

- (a) Eventide . . . . . Grondahl
- (b) Synnove's Song . . . . . Kjerulf
- (c) Last Night . . . . . Kjerulf
- (d) Vous dansez . . . . . Lemaire

- (a) Cradle Song . . . . . MacFayden
- (b) Cry of Rachel . . . . . Salter
- (c) Lazy Song . . . . . Lawson
- (d) My Love is a Muleteer . . . . . di Noguero

Marguerite Palmer Forrest, soprano, and Belle Meilus, pianist, will give the fourth of the Faculty Series of recitals in Music hall on Thursday evening, March 9. The public is cordially invited to be present.

# FARMERS!

We give you the

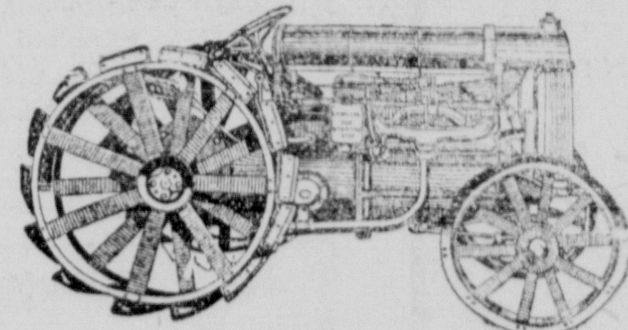

Work of Eight Mules For Price of Two

## HOW?

By selling you a "Fordson," the world's greatest power-farming invention

—You save the cost of six mules, their feed, care, cost of handling; do

your work quick, easier and, consequently, effect a big saving there also.

WE PROVE OUR ASSERTIONS

LET US HAVE THE OPPORTUNITY

Tractor \$425, Delivered

## Fordson Service

It has been said that promises are easy to make. That is only too true in this old world of ours, but we guarantee to keep every promise made and have been in business long enough to be able to name a legion of customers who will gladly back up our assertions—that we provide a real and actual service for Ford and Fordson owners, and without unnecessary delay.

## The Fordson Tractor, and What We Will Do

First, here is the one farm tractor that has practical service behind it. A tractor without prompt, efficient service behind it cannot deliver its full value to its owner. There is but one model of the Fordson, and that a perfect one. Henry Ford specialized. He made one tractor and made that one well. This means lower manufacturing cost and a lower selling price for tractor parts.

Second, give us these two tests.

Come to our station on West State street, in Jacksonville, look over the Fordson and name any five parts of it you choose; we will take you to the store room and show you those parts in stock. That means prompt service when you need it.

Then step to the phone and call up any of our customers and ask how long it takes us to get on the job when asked for service.

## What About Cars?

Ford Coupe . . . \$638

Ford Sedan . . . \$706

Ford Roadster . . \$367

Ford Touring . . \$470

And the Ford Ton Truck, \$475

These prices are "delivered," and the same statements that we have made as to service for Fordson owners apply equally to car and truck owners. It pays to buy where prompt, actual service is assured.

**WOMAN'S COLLEGE NOTES**

Monday and Tuesday President Barker was in Evanston attending the Illinois Federation of Colleges, of which organization he is president.

The annual celebration of Washington's birthday took place on Wednesday the 22nd. The chapel exercises were devoted to a special Washington service. The students were given a half holiday and employed the time in getting ready for the banquet which was held in the dining hall at the regular dinner hour. The decorations, as well as the program which was given later in the gymnasium, were in charge of the faculty.

The Freshman society, the Alpha Pi Delta, gave a pantomime at the regular meeting Tuesday afternoon in the Society hall: "A Modern Cinderella" was the name of the play given. It was put on by the joint program committee and was most clever in its conception and presentation.

Thursday evening the Sophomores took possession of the dining hall and put on their special songs and stunts. Immediately following the dinner all the students went to the social room where the four classes participated in a contest in impromptu and extemporaneous speaking; two members from each class taking part in each contest. There was most spirited class rivalry and a thorough good time enjoyed by every one present.

An illustrated lecture on Java was given by E. W. Allstrom, who had spent a number of years in this country.

The annual Phi Nu banquet was held Saturday evening in the Colonial Inn. The program and the details of this delightful affair have already appeared in another column of the paper.

A minstrel show by the Glee club of the college will be given Monday evening, March 6th, in Music hall.

Professor Edward C. Hayes, head of the department of sociology of the University of Illinois and president of the American Sociological association, will lecture at the Woman's college Thursday evening, March 2nd, at 8 o'clock, on the subject, "Economic Order and Justice."

Miss Dorothy Hammond of Taylorville is a guest at the college over the week end.

**The Auto Inn dancing class will meet next Tuesday at 8:15 p. m. Special work will be taken up for new and advanced pupils. Each pupil will be allowed to bring free a young lady guest that can dance. The right is reserved by Mrs. Cunningham of refusing or dismissing pupils whose presence would be deemed undesirable or detrimental to the government of the class.**

**QUARTERLY CONFERENCE HELD SATURDAY**

The quarterly conference of the Lynnville Methodist circuit was held Saturday afternoon at the Chamber of Commerce rooms. The meeting was in charge of Rev. E. L. Fletcher, district superintendent. Rev. G. T. Westzel is the minister of the circuit which includes the Merritt, Zion and Lynnville churches. Reports of the work of the Sunday schools and churches of the circuit were given and a financial report was also made. Yates Potter was confirmed as the new superintendent of the Lynnville Sunday school.

**Knights of Columbus annual entertainment. Minstrel, comedy and vaudeville acts at Liberty Hall, Feb. 27 and 28 at 8 p. m.**

**ATTEND BANQUET IN SPRINGFIELD**

Miss Florence Madden and Miss Grace Tickle went to Springfield last evening to attend a banquet given by the Professional and Business Women's club of that city. Miss Madden and Miss Tickle went as delegates from the Professional Women's club of this city, and will report the affair at the next meeting of the local club. The banquet given by the Springfield club was in honor of the national secretary of Professional Women's clubs in the United States.

**NORTHMINSTER WOMEN HOLD MARKET.**

The ladies of the Gleaner's class of Northminster church held a market yesterday in the window of the Conlee meat market on East State street. There was a tempting display of home made foods and all the articles found ready sale. Mrs. J. L. Mendonsa, the teacher of the class was in charge of the sale and she was assisted by a number of the members of the class.

**ILLINOIS COLLEGE NOTES**

The nominating committee of the College Y. W. C. A. have nominated the following girls for election to office for the coming year: President, Winifred Butcher; vice president, Ruby Mann; secretary, Marguerite Hyer and Alice Carter; treasurer, Caroline Lander and Glenna Smith; and undergraduate representative, Eunice Williamson. The final election of officers will take place very soon. The meeting of the Y. W. C. A. Monday afternoon will be a "Group Meeting."

Recent information received at college office discloses the interesting fact that George W. Harlan, the oldest living alumnus of the college, was born in 1824, thus making him about 98 years of age. Mr. Harlan was one of the founders of the Sigma Pi Literary society. His letters are still written in a hand more legible than that of many a younger man.

The following was the order of the scholastic ranking of the different College Literary societies at the end of the first semester:

Agora.  
Sigma Phi Epsilon.  
Phi Alpha.  
Gamma Delta.  
Sigma Pi.  
Non-Society Women.  
Alpha Eta Pi.  
Non-Society Men.  
Alpha Eta Pi is a new freshman girls' society organized last fall.

Among the college classes, the seniors have the highest average in scholarship. The eleven students ranking highest individually in the college at the end of the first semester were the following:

Fred C. Daig, '25, 3; Perry, Ill.  
Ray Grun, '24, 3, Camp Point, Ill.  
Roy Mabrey, '25, 3, Elorado, Ill.  
Glen Weaver, '22, 3, Galata, Mont.  
Alice Alexander, '25, 2.85, Jacksonville, Ill.  
Friedrick Engellach, '24, 2.84, Arenville, Ill.  
Celestine Hemphill, '23, 2.82, Eldorado, Ill.  
Margaret Johnson, '24, 2.81, Jacksonville, Ill.  
Alma Shuman, '23, 2.81, Roodhouse, Ill.  
Louise Ball, '25, 2.75, Paris, Mo.  
Richard Hobson, '22, 2.75, Greenfield, Ill.

In explanation of the above honor points, it should be stated that 3 is the highest possible average for any individual.

The Science club met Thursday evening to discuss the subjects, "Fossils" and "Fungus Diseases of Plants." Miss Marguerite Hyer, '25, and Celestine Hemphill, '23, lead the meeting.

The Sigma Phi Epsilon girls entertained the girls of the Alpha Eta Pi society Friday afternoon in their society room in Beecher hall.

"The Club" will meet in the College Chapel Monday evening to see a moving picture on the "Life and Work of Thomas A. Edison."

**NOTICE TO TAX PAYERS**

The tax books are now in the collector's office and taxes extended stand as judgments against all parties mentioned therein.

Persons paying on personal property only should pay the tax promptly and avoid trouble and expense in collection. The judgment reads as follows: "In case any person named in said books shall neglect or refuse to pay their personal tax, you shall levy the same by distress and sale of goods and chattels of such persons." Parties paying on real estates should bring their old tax receipts to save time and avoid mistakes. If paying thru the banks, leave your old receipts with your bank as soon as possible.

The Most Beautiful Car in America

**Buy Used Cars Now for Biggest Values Ever Known**

The used car market at the present moment presents a buying opportunity that is likely to come but once in a life-time.

The reductions in the prices of new automobiles to pre-war levels has had a startling effect. To say that used cars are now available at prices ridiculously low is but to state the simple truth.

The result of this unique market condition is just this: Buying a used car today means the purchase of more automobile value for your dollar than the industry has ever known.

When you buy a used car from us we will tell you exactly what you are getting and we will guarantee the title. We have some rare bargains. Come in and examine them.

We guarantee our used cars to be exactly as represented or money refunded

WHEAT, CORN AND  
OATS SHOW GAINS

By Associated Press.  
CHICAGO, Feb. 25.—Grain trade statisticians deduced an alarming wheat situation in the Argentine today and this, taken in connection with independent strength in corn and oats caused general upturns. Wheat registered gains of 13 to 23¢, corn of 23 to 25¢, oats of 13 to 14¢ and provisions generally off 7½ to 15 cents.

Wheat opened easy on Lower Liverpool cables, prospects of Sunday rains in the southwest and a desire of some holders to take profits. The Argentine estimates quickly overcame this movement however, the first figures indicating reductions of from ten to twenty million bushels in the exportable surplus of the South American granary. On this advance there was some selling by strong commission houses and a reaction developed at around \$1.46 for May, \$1.35 for July.

Then a brokerage news agency gave out what purported to be cables advising a leading export or showing 75,000,000 bushels as the remaining exportable surplus and the anonymous exporter was credited with predicting that it was "quite possible" that Argentina might import wheat by next summer. The resultant buying dominated the final hour of the Saturday short session and carried prices to the high point of the day.

Corn sold for a new high on the crop. A strong undertone prevailed and the market was broader than for some time. Extensive profit-taking caused only slight recessions, the state of country supplies and reports of export demands overcoming this.

The announcement that the Russian relief would receive bids next week for 25,000 tons of corn grits helped the market.

Oats were influenced by a good export demand and the strength in corn. It was announced that Monday's figures on visible supply of oats would include about 1,650,000 bushels stored in elevators which have not been reporting their supplies.

Provisions were only moderately active but the strength in grain and the further advance in live hogs worked prices upward and lard showed a new high for the season.

CASH GRAIN  
REPORT

By Associated Press.  
CHICAGO, Feb. 25.—Exporters were after cash corn and oats today in the Chicago markets. Sales reported were 325,000 bushels of corn of which 240,000 went to exporters; 327,000 bushels of oats including 250,000 for export, and 10,000 bushels of wheat. The seaboard reported 80,000 bushels of corn worked for export.

It also confirmed sales of 500,000 bushels of oats for Europe. Car lot receipts in Chicago were: Wheat, 9; Corn, 287; Oats, 50; Rye, 5; Barley, 3.

Country offerings of corn were scanty at fifty cents or more was bid to farmers. Sycamore, Ill., where there are large sheep feeding sheds, said feeders were bidding 55¢ for corn but getting hardly any at that figure. Pontiac, Ill., reported that bids of 50¢ there did not bring a bushel.

### PIE SOCIAL GIVEN AT GRACE CHAPEL

Successful Affair Given By Ladies of Grace Chapel Church—Other News From the Neighborhood.

The pie social given at the Grace Chapel church Wednesday evening was a decided success. There were 27 pies sold bringing \$17.50. The proceeds will go for the benefit of the church. The program was in keeping with George Washington's birthday and was as follows:

Song—"Crown Him"—Choir.  
Prayer—Rev. Wallace.  
Song—"The Fight Is On."  
Reading—"Better Things"—Lucille Bourn.  
Reading—"Vina Logan."  
Song—"True Blue class."  
Reading—"The Little Red Stamp"—Katherine Bourn.  
Reading—"Opal Roe."  
Song—"True Blue class."  
Reading—"Marie Parlier."  
Several in the audience gave interesting talks in keeping with the occasion.

Closing prayer—Rev. Wallace.  
Closing song—"Blest Be the Tie"—Congregation.

Oscar Bridgman has a very sick horse caused from water founder. Several ladies met at the home of Mrs. Newton Moss Wednesday to help quilt. At noon Mrs. Moss served a delicious dinner consisting of goose and all the trimmings. The ladies reported a fine time.

Lee Wheeler and family moved Thursday from the Silas Ragan farm to the John Rexroat farm north of Arcadia.

Mrs. Jesse Loughary returned home the first of the week after a few days' visit with her grandmother who lives in Missouri.

Fred Braner visited with his father, Elias Braner Monday evening.

### CHAMBER OF COMMERCE NOTES

Following the action of the board of directors on Thursday evening, sanctioning the investigation of all soliciting and advertising schemes by a committee of the Chamber of Commerce members before approval is given to the enterprise, the trade extension committee began a canvass of the membership to secure signatures to the agreement. As there are sixteen members of this committee it will be but a short time until all the canvassing has been completed. Cards bearing the following statement will be displayed in all stores, offices and shops:

"As a member of the Jacksonville Chamber of Commerce we are forbidden to subscribe to any special advertising of solicitation not endorsed by our organization."

The tourist reception committee, composed of Marcus Hulet, chairman; T. M. Tomlinson, E. A. Brennan, J. G. Berger and Charles Strawn, will meet this coming week to get ready for the

spring crop of tourists. Some needed improvements will be made at the free camping grounds. Folders describing Jacksonville and possibly maps will be declared to give each tourist that comes to the city this season.

The committee of Waier Main Extension met at the Chamber of Commerce rooms Saturday afternoon to formulate the report which will be given at the Forum meeting on water main extension, to be held Tuesday evening, February 28th. The following letter has been sent to each member: "Our next Forum meeting will be held Tuesday evening, February 28th at 7:45. The question under discussion will be the extension of the water mains in Jacksonville. This is a real live subject and needs the co-operation of all members if we are to realize our hopes of a 'Greater Jacksonville.' The business session will be followed by a social hour with refreshments and a speaker. Let's see every member in attendance."

Further progress will be made this week with the work of formulating a traffic bureau or traffic committee, which will be a part of the Jacksonville Chamber of Commerce. Chairman Charles Fiedler has been gathering data to present to his committee and expects to have it ready the early part of the week.

A special committee has been authorized to assist the Jacksonville Building and Loan association with the work of a campaign for new subscribers which will open the first of March. This campaign, which directors of the association will stage at the beginning of March will be for the purpose of getting additional subscribers and better quarters for the organization. It is hoped that the assets of the association may be increased so that the loaning power will be greater, thus making possible the building of more houses in Jacksonville. The association will then become a factor of real benefit to the community and will remedy, to a great extent the housing problem in this city.

The Jewish Relief Drive ends March 1st. Mail your contributions at once to Ben Cohen, chairman. Shall they plead in vain? Help save a few souls.
